James B. Jennings, "Young Kid" Carter.

List of confessed crimes, including a number committed in the west:

- Strangled Mildred Donovan.
- New Year's eve.
- Shot William H. McPherson.
- New Year's day.
- Had a hand in "several murders in the west."
- Took part in a murder in Jackson, Mich., in 1910, for which his partner got a second degree sentence.
- "Struck up" an old man named Hill last year in Everett, and killed Mrs. Donovan because he thought she meant to "sneak" on him.
- Beat up Edward Cass in Everett so badly that the man is now in an asylum.
- Has been arrested forty times.

BOSTON, Mass., April 18.—Both reform societies and police authorities were busy today as a result of a dramatic confession of James B. Jennings, known in pugilistic circles as "Young Kid" Carter, who was guilty of murders of which he was never suspected. He charged the police with starting him on the downward path.

Jumping up in the courtroom after he had been sentenced to life imprisonment for the killing of William McPherson in a barroom, Jennings cried:

"I killed Mildred Donovan. It's only one of the many murders I've committed. What do you think of that?"

Jennings asserted that when he was young the police arrested him without reason, put him in a cell and beat him. Jennings, after his first wild rush of words, related the remainder of his confession with the utmost concern. Declaring that he would not bother with red tape, District Attorney John J. Higgins of Middlesex county today began an investigation into the truth of the confession.

"I will leave no stone unturned to cause Jennings' conviction for his confessed crime," said Higgins.

Coolly describing the murder of Mrs. Donovan, whom he feared, because she knew of another of his crimes, Jennings said:

"She died easy. I choked her for eighteen minutes. She didn't struggle hard. See this finger and the broken finger nail; that's the only mark I bear from the struggle."

HEETER IS ACQUITTED

PITTSBURGH, Pa., April 18.—S. L. Heeter, superintendent of Pittsburgh public schools, was acquitted today of charges made against him by pretty 18 year old Ethel Ivy Fisher, a former housemaid in his home. The jury deliberated for an hour late yesterday, sealed its verdict and reported today in court.

The jury exonerated the school superintendent of the charges made in two indictments returned by the grand jury alleging he misbehaved with Miss Fisher and that he advised a criminal operation.

HORSE SHOW OPENS

PHILADELPHIA, Pa., April 18.—A brilliant scene marked the opening of the second annual indoor horse show today. Society and horse lovers from afar crowded the mammoth tents in which the two days' exhibition is being held. Hundreds of thousands of dollars worth of jewels glittered on the fair spectators who were in the boxes built about the main ring, which is 60 by 160 feet. More than \$1,000 in donated prizes will go to the winners. The entry list is larger than last year. The proceeds go to charity.

OPERATORS ACCEPT TERMS

CHARLESTON, W. Va., April 18.—Coal miners in the Cabin and Paint Creek districts, where several thousands of men have been on strike for a year, were expected today to make their reply to the "peace proposals" of Governor Hatfield. The coal operators late yesterday accepted the governor's terms, which conceded practically all the miners' demands except recognition of the union.

BIG VAULT STICKS

KANSAS CITY, Mo., April 18.—The big safe in the First National bank, the largest in the city, would not open this morning and expert crackers are at work on it. Millions of dollars are locked up in the vault. The bank officials borrowed \$100,000 today from a neighboring bank with which to carry on the day's business.

Twenty smiling (?) faces greeted Jailer George Brown when he went into the cell department of central police station to "count noses" before serving breakfast. "The biggest bunch we have had in a long time," said Chief John Webber, commenting on the number arrested yesterday and last night. The largest share of those whom Jailer Brown tried to serve had but a poor appetite for breakfast because they were guests at Mr. Brown's table as a result of too much catering to the appetite the night before.

Five were arraigned before Judge Edward Cronon this morning on a drunk and disorderly charge and the rest, except four or five who are being held on other charges, were turned out with the advice to "go and sin no more."

Sam Larson, who got into trouble in the Bangor saloon because he insisted that he had change for ten dollars coming when he had given the bartender only a five dollar bill, and tried to take the change out in "rough house," added \$12.50 to his expense account this morning at the advice of Judge Cronon.

Indian on Pow-wow

John Winneshiek, an Indian, paid \$7.50 for being drunk. According to the police his celebration the night before was a lurid success, so much so in fact, that he rode to the police station on the broad back of the patrolman who found him.

John Hamel was assessed \$12.50 for allowing his exuberance crop out in the form of profanity in the waiting room of the Burlington railroad station.

Martin Erickson tried to sleep off behind some bill boards on South Third street and objected strenuously when the patrolman found him and tried to send him home. His "sass" and the night's lodging in the police station cost him \$12.50.

Ole Nestinger, who made one more round to bid his friends good-bye before leaving for Norway and got himself into a condition where he didn't know the direction of Norway from straight up, paid a fine of \$22.50. Nestinger has made the rounds with the same result so often that his fines would more than pay for a ticket to his alleged destination.

Catch Thief in the Act

Walking into the Corcoran hotel Patrolmen William Ritter and Herman Rick arrested John Kelly, whom they allege they caught in the act of "frisking" the clothes of Dick Williams, who was asleep in a chair. Kelly will be arraigned before Judge John Brindley in county court late today or tomorrow on a charge of larceny from the person.

Patrolmen Ritter and Rick were searching for the man who stole a bicycle from Eugene Simon yesterday when they went into the Corcoran. Simon's bicycle was stolen from the door of the Burlington offices where he had left it on going in to work. The bicycle was located at a saloon where it had been sold for 80 cents, which the thief said was a pretty good price for it. Shortly after James Frey, a tramp, was arrested on the description furnished by the saloon man who bought the wheel. He will be arraigned on a charge of larceny.

WESTERN LEAGUE OPENS

TOPEKA, Kan., April 18.—The Western league season opened with record crowds in three cities today. Topeka was honored for the opening by a game with the two-time champion Denver Grizzlies. Lincoln played at Wichita, Des Moines at St. Joe, and Sioux City at Omaha. Denver, Lincoln, Des Moines and Sioux City open at their respective home fields on April 25 when they meet the same clubs they play today.

375,000 ON STRIKE

BRUSSELS, April 18.—About 375,000 men were out on the fifth day of Belgium's manhood suffrage strike according to both government and socialist estimates today, and Leader Vandervelde said that he expected fully half a million to be out by the end of the week.

CONVENTION IS O. K.'D

MADISON, Wis., April 18.—By a vote of 41 to 37 the assembly today reversed itself on the question of a referendum on the question of a constitutional convention and ordered it engrossed. Messrs. Anderson and Rose argued for the referendum and Mr. Roethe against it.

ROMANOWSKY COMMITTED

CLAUDE Romanowsky, son of Fred Romanowsky, was ordered committed to the asylum at West Salem by County Judge John Brindley today. He left on the noon train in the custody of the sheriff.

Daily conferences with the officers of civic organizations and others interested in the moral welfare of the city are being held by Mayor Ori J. Sorensen for the purpose of arriving at a solution to the problem that confronts the new administration. Information gleaned in these conferences will be used in the general orders which Mayor Sorensen will issue to the police department in the near future.

"There is no use in going about the cleaning up of the city in a hysterical frame of mind," said Mayor Sorensen today, "and when I carry out my promises as outlined in my statements before the election, I shall do so with the best possible understanding of the situation. I am spending considerable time in conferences with persons interested in the moral welfare of the city and I am becoming possessed of some information on the subject. My orders to the police department, which will be issued in the near future, will be made public."

It is understood that the "word has been passed around" to several of the saloons, who allow women to patronize the bar or allow women in their place of business, that a clean up is in order and that it had best be done before July 1 or the question of licenses will be raised in a truly embarrassing manner.

Young girls on the streets after the curfew will no longer be tolerated, it is said, and if the first warning which will be sent to their parents is not heeded the court and jail will be called into service. Considerable complaint has been made that boys and girls have been allowed to run the streets at will late at night and students of civic conditions place the blame for much of the immorality on this fact. Strenuous action to put a stop to this will be undertaken by the police.

Another cause of complaint which will probably receive the attention of the new administration is the public dance. It is rumored that several dance hall proprietors will be called to account and these affairs run under police regulation hereafter.

PLAN CLEAN-UP OF  
DIPLOMATIC CORPS

Bryan to Sweep All Re-  
membrance of "Dollar  
Diplomacy" from  
Service

TO REORGANIZE HIS DEPARTMENT

Commoner Intends to Dis-  
miss Many from Office  
in the State De-  
partment

WASHINGTON, April 18.—Having thrown "dollar diplomacy" into the discard, President Wilson and Secretary of State Bryan are now planning to sweep all remembrance of it from the diplomatic service.

The south and central American diplomatic corps are to be reorganized and Secretary Bryan plans a general reorganization of his own department.

The secretary of state is none too well pleased with the attitude assumed by certain of his subordinates and with their activity in making public matters that he believes should come from the chiefs of the department. It is understood that he is having a careful investigation made and when it is completed there will be a number of changes "for the good of the service."

In the South and Central American reorganization, it will be the policy of President Wilson to recall the officials who have big interests in the countries where they are representing the United States. Certain of the attaches of the United States legations have taken advantage of their positions to influence financiers of the United States to local industries to their own pecuniary benefit and this method is not considered ethical under the present administration.

CRANE DECLINES POST

WASHINGTON, April 18.—A report that Charles R. Crane, whose name has been under consideration by President Wilson for several weeks, to be ambassador to Russia, had notified the president that he could not accept the position because of pressure of business affairs, was widely circulated here today.

WILSON AT REQUIEM

WASHINGTON, April 18.—President Wilson today, in company with other high officials of the government, attended a solemn high mass of requiem, held in St. Mathews' Catholic church in memory of the late President Manuel Bonilla of Honduras.

CARY WINS BY 36,000

MADISON, Wis., April 18.—(Special.)—The official canvass of the vote in state superintendent today shows the following results: Total vote 236,511; Cary 136,156; Kittle 100,130; Cary's majority 36,426.

When DeForest C. Dewey and Superintendent MacFarlane come to you for help for the City Mission, think of what the mission has done for this poor girl. She was "on the town," and in the streets of this city she was one of many who have lived the sordid life. The City Mission got her a few days ago, and the above letter tells the story.

Only last week another girl, a La Crosse girl, was arrested as an incorrigible, and the charge on which she was booked was one that would have landed her in the penitentiary. Who cared? As they say in "Everybody's Lullaby," Dewey cared. Judge L. Kleeber, representing the state industrial commission, says Dewey alone did what was done for the girl. The charge was dismissed, and Dewey took the girl in hand. SHE IS NOW WORKING IN A RESPECTABLE FAMILY, and refuses to go upon the streets at night. The people who are keeping her say she is "making good."

These are but two of many cases. They are cited because they are the cases of the month. And THIS WORK CAN BE KEPT UP FOR \$500.

Messrs. Dewey and MacFarlane report good progress by the teams today, and tomorrow John M. Holley, Sr., and George H. Gordon, two men who are deeply interested in the mission, will give the day to the work.

Tonight there will be a meeting at the City Mission, at which Superintendent MacFarlane will deliver an address.

KEYSTONE SOCIETY INITIATES

MADISON, Wis., April 18.—Keystone, the society composed of the presidents of all the women's societies in the University of Wisconsin, initiated six young women this week. Those who were taken in are: Agnes Hall, Elgin, Ill., president of the university Young Woman's Christian association; Nettie E. Karcher, Burlington, president of the Woman's Athletic association; Katherine Morrissey, Elkhorn, president of Pythia Literary society; Eulalia H. Croll, Manitowoc, president of Castalia Literary society; Esther King, Waterloo, president of Round Table Literary society, and Bessie V. Brittell, Milwaukee, president of the Girls' Glee club.

DEATH ENDS STATEMENT

CHICAGO, April 18.—Through use of a pulmotor, physicians obtained a statement from William Kuhns, 21, of No. 810 West Congress street, today, that may be made the basis of a police investigation. Kuhns was brought to a hospital unconscious from opium poisoning. Four physicians worked over him with a pulmotor and he revived long enough to tell a nurse that he had been poisoned. Desperate efforts were made to keep him alive until he could complete his story but he expired.

GARLAND TO SPEAK

MADISON, Wis., April 18.—Hamilton Garland, the well known magazine writer and novelist, will be the chief speaker at the second annual convention of Sigma Delta Chi, the national journalistic fraternity, which will be held at the university of Wisconsin, May 2 and 3. Another important speaker will be Chase Osborn, former governor of Michigan, who is honorary president of the fraternity.

LAUNCH TRUST COMPANY MAY 1

New Corporation to Handle Estates, Manage Properties and Act as Trustee and Receiver

TIFFANY IS GENERAL MANAGER

The La Crosse Trust company, which was incorporated by capitalists of this city about a year ago, will establish an office and open up for business the first week in May, according to an announcement today. The greater part of the \$50,000 capital stock has been subscribed and it is expected that the remainder of the stock issue will be taken up this week or next. Subscriptions are being written in all of the La Crosse banks.

Although the organization has not yet been perfected, the election of the board of directors and officers will be held the last of this month. F. G. Tiffany will assume the duties of active management of the corporation. The offices of the Trust company probably will be installed in the building now occupied by the State bank, which will vacate to move into new quarters in the MacMillan building next week, or in the lower floor of the Batavian bank building.

The La Crosse Trust company, which has the backing of the stockholders of all the banks of the city, was incorporated to fill a long felt want in the business field. It will deal in the handling of estates, the management of properties, real estate mortgages and bonds, will act as trustee of bond issues and as receiver in bankruptcy. It will also receive time deposits of money the same as a bank but it is not expected that the company will undertake a large business in this line at first although this branch of the business may be extended as the situation demands.

Trust companies in Wisconsin operate under practically the same laws that govern banks. The business field that the new company will enter has been almost entirely left to individual capitalists and business men heretofore. Mr. Tiffany, who will be general manager of the company, is a man of wide experience along the lines of business in the field of the trust company and it is expected that under his supervision the institution will develop into an efficient and influential force in the La Crosse business world.

EXPECT TO FINISH BILL SATURDAY.

Planned to Report Measure  
to the House Monday  
and Open the  
Debate

WASHINGTON, April 18.—Consideration of the "star" feature of the Underwood bill—the "free list," declared the greatest potential factor in reducing the cost of living planned by the new administration, was given today in the house democratic caucus. Seven additions to the list of free entry products were planned.

Completion of the tariff bill tomorrow by the house democrats is scheduled. It is hoped to report the bill to the house Monday and there open the debate which will precede its passage and transfer to the senate. The democrats of the house ways and means committee met today to make some minor amendments in phraseology to the bill as a "polishing off" process. No material changes in the income tax provisions are expected, except an amendment freeing life insurance income from excessive taxation.

The house republicans held another caucus this afternoon to decide whether the minority should content themselves with criticizing the Underwood bill. The latter plan seemed generally favored. The republican caucus today was open to the public following adoption of a resolution by the caucus last night declaring for the publicity feature.

Representative Hardwick of Georgia attacked the "rubber trust" with an amendment proposing to levy a ten per cent tax on crude rubber. The product is on the free list in the Underwood bill. Hardwick's proposal was defeated, 83 to 33. The ways and means committee was again sustained when Representative Borland of Missouri proposed to put manufactured rubber products in the free list.

the Government

WILSON PERPLEXED BY PROBLEMS

Japanese and Mexican Sit-  
uations Give President  
and Bryan Wor-  
ries

TOKIO, April 18.—Without exception the responsible newspapers of Japan today ridiculed and tried to pass off as a joke the hysterical mass meeting of last night in which 20,000 wildly cheered a demand for war against the United States, should the alien land bill in California become a law.

For days the Tokio press has devoted columns to the proposed alien law and the mass meeting was largely a spontaneous affair, addressed by orators affiliated with no political organizations.

Condemn Government

The speakers all condemned the Japanese government for its "spineless" attitude as severely as they protested against California's proposed action. When one spokesman, more radical than the rest, demanded war, he was cheered for several minutes, but the newspapers and officials of Japan today tried to give the impression that no significance should be attached to the demonstration.

Two Big Problems

WASHINGTON, April 18.—Japan and Mexico are hourly becoming more insistent problems to be met by the present administration. The developments in both nations are receiving especially attention from President Wilson and Secretary of State Bryan. The situation, however, is very much complicated by the fact that this government has only acting heads for its diplomatic corps in each country.

The ambassador to Japan, Larz Anderson, is in Washington instead of Tokio, and the resignation of Mr. Henry Lane Wilson as ambassador to Mexico would have been accepted long ago were it not that his successor would have to be accredited to a government not yet recognized by this country.

Wilson Fears Outbreaks

The news of numerous anti-United States meetings throughout Japan has simply emphasized to President Wilson that the condition he has reason has arrived. He made it very plain in talking over the pending legislation in California that the chief danger so far as this country was concerned, would be popular agitation which might result in anti-United States outbreaks. The president holds, however, that California is privileged to enact whatever legislation she may desire, and it is known that he has been flatly told by the higher authorities that he has consulted that the Mongolian problem on the Pacific slope is fully as great as the negro problem in the south.

The president, however, is endeavoring to get a new ambassador to Tokio at once. He wants a man there on whom he can depend. The friends of George W. Guthrie, former mayor of Pittsburgh, Pa., and chairman of the Pennsylvania state democratic committee, have been insistent that he be sent there.

Will Be Copied

President Wilson has told the Japanese ambassador that he has promised to use all his influence to modify the new laws as much as possible, but he fully realizes when they are finally adopted, they will be copied by Washington and Oregon and that immediately Americans will become decidedly unpopular in Japan. Consequently he wants a real diplomat to represent the interests of the United States as he will have a very delicate situation to meet at all times.

HOSPITAL STAFF POISONED

NEW YORK, April 18.—The 65 physicians on the staff in Bellevue hospital started an investigation today to find out where the chicken came from that was made into a salad for yesterday's luncheon and poisoned the whole staff with ptomaine. Every doctor became ill before night, a number suffered seriously. None was able to make the round of the wards and the nurses had to attend to the patients alone.

EAU CLAIRE GETS NORMAL

MADISON, Wis., April 18.—That the city of Eau Claire is practically assured of securing the next new state normal school was indicated by the action of the joint finance committee in reporting for passage the Ackley bill for an appropriation. The committee allowed \$75,000 per year for three years, making a total appropriation of \$225,000.

\$300,000 FIRE IN CALGARY

CALGARY, Alta., April 18.—Fire which broke out at 3 o'clock this morning in the McLeod Clothing store destroyed the building and contents and spread to the large plant of the Albertan, a newspaper, where it raged until 6 o'clock this morning, wrecking the plant. The loss is \$300,000.

HIS HOLINESS NOT OUT OF DANGER

Pontiff's Heart Action  
Needs to Be Kept Con-  
stantly Stimulated  
by Drugs

ROME, April 18.—Pope Pius X was said to be much improved today, following a night in which he slept tranquilly except when disturbed by paroxysms of coughing.

Professor Marchiafava and Dr. Amici, on their first visit of the day, issued the following bulletin:

"The Holy Father passed a tranquil night, and today there is no fever. His temperature is 97.8. The bronchial affection has been ameliorated and his general condition is improved."

Wants to Leave Bed

By noon the pope had chatted with his sisters, Maria and Anna Sarto, his brother Angelo and Monsignor Parolin of Venice, his nephew, and he was allowed a little nourishment consisting of weak chicken broth and a piece of dry toast. He insisted on leaving his bed again, but, by the physicians' strict orders, the attendants persuaded the pontiff to lie still at least until the afternoon, when he was told he might sit up a little while if his condition and the weather continued favorable.

The rally of the pope by no means restored confidence in the vatican, though it cheered the people of Rome not a little. Cardinal Herry del Val and the doctors admitted that it would take a week of such days as yesterday to so restore the pope that his present attack would not have a fatal termination, and even then he might never be able actively to occupy the throne of St. Peter again.

Drugs for Heart

The pope has hourly injections of drugs to strengthen his lagging heart and he is very weak. The physicians make no attempt to disguise the probability that another relapse almost surely would kill the pontiff, and they are doing everything in their power to make him obey their orders.

Hourly requests came from the quinal for details of the pope's condition, and this coupled with the visit of a royal princess, Lady Isabella, waiting to the Dowager Queen Margherita, strengthened the rumors of a secret alliance between the vatican and the Italian government to frustrate any possible movement to name as pope a cardinal of some nation other than Italy, in the event of Pope Pius's death.

32 Cardinals Italian

Thirty-two of the cardinals of the Sacred Heart college are Italians. Ireland, Austria-Hungary, France, Germany, Spain, Portugal and other nations outside Italy have a representation of twenty-seven. In a deadlock, it is regarded as impossible that an effort might be made to select a foreign pope, and this would be extremely distasteful to the quinal. Those repeating the story point out that the government, unofficially, of course, is paying more attention to the illness of Pope Pius than it ever paid to any pope before since the estrangement of church and state half a century ago.

#### WAUSAU MAN IS PICKED FOR PLACE

WASHINGTON, April 18.—Herbert H. Manson of Wausau, Wis., chairman of the democratic state central committee of Wisconsin from 1905 to 1910, was today nominated by President Wilson as collector of internal revenue for the western district of Wisconsin. He was actively associated with Joseph E. Davies in the Wilson campaign, is a product of the Wisconsin state university and a lawyer at Wausau. He was a delegate-at-large to the democratic national convention in Denver four years ago. He is married and has one child.

#### STUDENT COURT SUSPENDS HAZER

MADISON, Wis., April 18.—The student court today suspended Fred J. Heney, '14, of Sun Prairie, for hazing during the last week. His suspension is from all classes for seven school days. Harry Rusch, '14, was found not guilty.

Jack Stein, a freshman from Milwaukee, was found guilty of not wearing his green cap, but sentence was suspended. The other cases were postponed until Friday night.

The lightness of the sentence in Haney's case is due to the lack of evidence before the court.

#### THREE ARRESTED IN OPIUM DEN RAID

MILWAUKEE, April 18.—Three negroes, one of them a woman, were taken into custody in a raid on an alleged opium den at 204 Fourth street, rear, at 2 o'clock Thursday morning. Though none of the persons was found "hitting" the pipe, an investigation of the three rooms rented by one of the negroes, a Fourth street barber, disclosed two large sized cans of the "hop," two needles and an opium pipe hidden in a corner of the kitchen.

Anyway, a man need not fear competition when he is in love with himself.

It looks like eternal punishment to some people who are unable to get a divorce. The man that a woman says she doesn't care for is generally the one she cries over.

#### CHRIST HELD ON MURDER CHARGE

MARINETTE, Wis., April 18.—Peter J. Christ, former superintendent of the workhouse, was bound over to the circuit court yesterday on a charge of murder in the first degree, for the killing of Howard Leaf, a prisoner whom he shot in an altercation. Christ is in jail and has made no effort to get bail.

### EXPLAINS REASONS FOR LAND MEASURE

California Representative Says Japanese Cannot Be Assimilated in United States

WASHINGTON, April 18.—Why the state of California is defying Japan's diplomatic power and refusing to acquiesce in suggestions from the United States government that it abandon its plan of excluding Asiatics from ownership of land in California was explained in a statement written for the United Press today by Representative Kent of California. Kent is credited with having done more than any other Californian to bring the state department to appreciate the attitude of Pacific coast people. His statement follows:

**Kent's Statement**  
Chinese exclusion was based on economic and social reasons. The economic reasons were fallacious. If Chinese did our work without demoralizing our democracy, there was no reason why he should not do it. But in working he kept out white labor and thus demoralized our social status.

The same reasons were cited as objections to the Japanese. He was found to be a much less valuable economic quantity than the Chinaman. He did not have the same ideas of commercial integrity. His social attitude was much more offensive. Exclusion laws would undoubtedly have been passed against Japanese if their government had not entered into a treaty to provide against issuing passports to its laboring classes coming to the United States.

We cannot deny that taken racially the Japanese are different from white men. They cannot be assimilated with our population. The introduction of permanently defined groups of a non-assimilable population must necessarily create betterness and misunderstanding and hamper the development of democracy.

**Japs Urge Action**  
TOKIO, April 18.—Members of parliament today called on the premier to make stronger representations to Washington against the Californian alien title bill. It was urged on the premier that a friendly settlement surely could be arranged if the proper steps were taken.

Popular clamor was renewed for a test case to be carried to the supreme court of the United States to show that Japanese are not Mongolians, and, therefore, are eligible for naturalization in the United States.

#### FRAT BILL POSTPONED

MADISON, Wis., April 18.—Agitation of the university fraternity situation at this session of the legislature was ended today when the assembly by a vote of forty to 39 indefinitely postponed the Sawyer bill for a legislative investigation of fraternities. The assembly killed the amendment Rosa submitted to the Sawyer bill, but adopted an amendment by Hurlbut striking out provision to require the fraternities to produce their books and secrets of organization. Anderson, author of the bill, himself opposed the substitute, which, he said, would stop the committee right at the door, and believed it made no difference whether an investigation were made or not, the issue was before the people and would be there until settled right. Hansen believed the amended substitute of no value and moved indefinite postponement, which was carried.

It may be difficult for you to believe that the world will go on just the same after your demise—but it will.

### OLD SETTLER DIES AT THE AGE OF 85

Mrs. Patrick Burns Succumbs Early Today; Funeral to Be Held Monday Morning

Mrs. Patrick Burns, mother of John C. Christ Jr., and Patrick J. Burns, proprietors of the Burns Fruit House, died at her home, 724 South Fourth street, at 2:45 a. m. today. Death was caused by a general breakdown due to her age and was not unexpected.

Mrs. Burns was one of the early settlers of La Crosse coming to this city from Ireland in 1855. She was a widow, having survived her husband seven years. She was born in Ireland in 1828 and was 85 years of age. She is survived by her three sons and one daughter, Miss Mary Burns.

The funeral will be held from the St. Mary's church at 9 o'clock Monday morning. Father Robert B. Condon will officiate at the services. Interment will take place in the Catholic cemetery.

Mrs. Burns was an active worker in her church and enjoyed an extensive acquaintance in the city. Her loss will be keenly felt, especially among the older generation.

### BILL TO REGULATE STOCK EXCHANGES

WASHINGTON, April 18.—Stringent regulation of stock exchanges, including their prohibition from the mails or telegraph unless incorporated, are made in a bill introduced yesterday in the house by Representative Neely of Kansas, a member of the Pujo money trust investigating committee.

Neely's bill imposes fines and prison sentences on stock brokers and telegraph officials who transmit quotations, telegrams, letters or other documents, relating to business of an unincorporated exchange. He would also have the postmaster-general prevent "wash sales" and "matched orders" on the stock exchanges.

Publicity of securities offered on stock exchanges and publicity of directorates are also included.

### Daddy's Bedtime Story—

Was Clever  
Carlo Able  
To Think?

Carlo Was Hidden Under the Blanket.

**D**ADDY said he didn't know. Mother said she wasn't sure, so Jack and Evelyn could not get an answer to the question which they asked daddy when he came home one evening. The question was, "Do dogs think?"

Daddy said: "I don't think all dogs think, but I once knew a dog which seemed to think. At any rate, he acted as though he thought. This dog belonged to my Uncle George, who lived with my grandmother. Uncle George was very fond of animals and liked this dog. The dog's name was Carlo. But my grandmother did not like dogs, and she often said to Uncle George that she wished he would get rid of the animal.

"Carlo was not a bad dog, but he was pretty mischievous. I am afraid, and he played tricks with grandmother's knitting. One day when he was especially naughty he tangled her yarn so badly that she could do nothing with it and had to throw it away. So she insisted on Uncle George getting rid of Carlo. The dog was in the room when he heard her scolding and crawled under the table just as though he understood her words. I think he did not want to leave Uncle George, who was a very kind master.

"Well, mother," said Uncle George, "as you dislike poor Carlo so I must get rid of him. But I hope you will let me keep him until I can find some one who will give him a good home."

"Very well," said grandmother.

"Soon after that my father took me to visit grandmother and Uncle George. It was in winter, and we drove there in a sleigh. Uncle George asked father if he wanted Carlo, but father said he already had two dogs and did not care about taking Carlo, although I begged him to let me have the dog. Carlo heard the talk and wagged his tail at father in the most friendly way as much as to say, 'Do take me with you,' but father would not have another dog, he told us.

"Well, we drove home from grandmother's in the sleigh. When we got home in the back of the sleigh we found our friend Carlo safely and snugly hidden under a blanket. While we were saying goodby he had gone out and hidden himself and had remained quiet all the way home. Father thought it so bright of him that he wrote Uncle George saying he had decided he would keep Carlo.

"But the queerest part of the story is that we could never get Carlo to visit grandmother. He seemed to know where we were going and would not go. I think he was afraid Uncle George would keep him if he ever visited his home again, and he knew that he and grandmother never could agree. So he stayed away."

## PROPERTY OWNERS SEEK RECOMPENSE

Rose Street Residents Employ Hartwell to Confer with City About Viaduct

Residents of Rose street affected by the new viaduct proposition became active today when they took up a discussion of the matter with the city officials through Attorney Fred H. Hartwell as their representative. Inasmuch as the city is to have a conference with the railroad commission next week nothing definite has yet been done by them.

When the present viaduct was built, a great amount of property was ruined. Homes were raised and otherwise adjusted to meet the new conditions. A further change now along the lines suggested by the railroad commission would mean that the widening of the approaches would necessitate the purchase of a strip along the front of abutting property and in some cases the moving back of buildings. The change in grade suggested will make the approaches much longer than at present and property now untouched will be greatly damaged. The resulting condemnation suits, they claim, will mean a great outlay of money by the city in addition to the cost of the bridge and approaches.

Happiness often consists of not getting the things we don't want. Empty headed men can get full in no time.

## BOXING LAW GETS O. K. OF ASSEMBLY

MADISON, Wis., April 18.—Boxing of the legalized variety is in prospect for Wisconsin. By unanimous vote, the assembly judiciary committee has recommended the bill for passage and legislators today declared that the final obstacle in the way of the bill's adoption had been removed.

As framed, the Wisconsin bill greatly resembles the statute now in force in New York, providing for a boxing commission with full jurisdiction over all mitt affairs, the licensing clubs and the physical examination of all contestants prior to the entrance to the ring.

**Sleep as a Remedy.**  
A large proportion of our population would be better off and wiser if they stayed longer abed. Sleep is the cheapest good thing in the market. It costs nothing but time, and if the necessary time is well selected you hardly miss it. If, following the present fashion of reformatory legislation, all the legislatures should pass a law that all citizens should spend at least one-third of their time in bed, we dare say the demand for space in the lunatic asylums would fall right off.—Life.

## HIGHS DOWNED BY CURTIS MACHINE

Superior beat the high school yesterday in a five inning contest, by a score of 4 to 0.

Rhodes, pitching for Superior, showed up in good form with ten strikeouts. Ford, Collins, Vigerist and Cullis batted in midseason form. Monihan behind the plate did some clever catching, but some of Curtis' men did not play their best, owing to the sudden change in weather.

Krause, pitching for the highs, came up with some fast ones that surprised a number of fans who came to the park to watch the students' form. Roeder, catching for the high school, also did some good work, but the greater experience of the Superior team was too strong for them. Curtis umpired.

## DEADLOCK BROKEN AT D. A. R. MEET

Independent Candidate for President Withdraws from the Race

WASHINGTON, April 18.—The deadlock in the race for the presidential general of the D. A. R. was believed to be broken today when Mrs. Charles D. Bryan of Nashville, Tenn., the independent candidate, announced her withdrawal.

Both the administration and anti-administration factions claimed Mrs. Bryan's two score votes in previous ballots will be for their respective candidates and the counter claims caused even more confusion than during the former balloting.

## WIDOW AND LOVER HELD FOR MURDER

Wife of Tailor Found Slain and Man Alleged to Be Affinity Is Accused

## WOMAN PROTESTS HER INNOCENCE

Partner Admits Relations with Widow at Inquest Held Yesterday

CHICAGO, April 18.—Protesting through her tears that she knew nothing of her husband's murder, that the stories of her alleged improper relations with George Nurnberg, harness manufacturer, were all "a horrible mistake," Mrs. Augusta Dietz, widow of George Dietz, wealthy tailor, mysteriously slain in his bed Monday morning, today prepared for a second trying ordeal when she is to be arraigned this afternoon to answer to the formal charge of murder. Nurnberg, her alleged affinity, who at the inquest admitted that he had taken Mrs. Dietz to a hotel "two or three times," will be arraigned on the same charge.

The coroner and police have nothing thus far to prove that either Nurnberg or Mrs. Dietz swung the heavy hammer that crushed the tailor's skull while he slept.

Mrs. Dietz was near a collapse today, but after a physician had attended her she held a conference with her attorney before going to the Sheffield branch of the court for the arraignment this afternoon.

Nurnberg, released from custody today, was in his harness shop. While he directed the movements of a number of employees, city detectives stood guard.

Mrs. Nurnberg wrung her hands and cried when she learned that her husband was to be arraigned.

"It nearly broke my heart when I first suspected my husband," she said, "but I had the satisfaction of learning what he had been keeping from me—his unfaithfulness."

Mrs. Dietz and Nurnberg were released under \$10,000 bond each this afternoon, following their arraignment on the charge of murder.

Judge Goodenough overruled the objections of attorneys for the two, who asked that the bonds be fixed at \$5,000 in each case, in accordance with an agreement reached after the coroner's jury requested their arrest.

## MINNESOTA GETS MINIMUM WAGE

ST. PAUL, April 18.—The house bill to provide for the establishment of a minimum wage commission for women and minors passed the senate today. There was no opposition, the vote being taken immediately following the third reading. There were no amendments.

The bill now awaits only the signature of Governor Eberhart to make it a law. The purpose of the commission is to insure a reasonable wage for women and minors and to regulate the conditions under which they are employed. The commission is to be composed of four members, one of these shall be a woman, one the state labor commissioner and the other two will be appointed by the governor.

Among other things it is provided that every employer of women and minors must keep a record of their names, addresses and the wages paid. These lists will be at the disposal of the commission at all times.

## KIRKE MEETS HIRSCH

NEW YORK, April 18.—Ollie Kirke of St. Louis who recently fell a victim to the punches of rejuvenated Abe Attell, will have a chance to revenge himself today when he meets "Special Delivery" Hirsch in a ten round bout before the Brooklyn Beach Athletic club. Hirsch is a protégé of Attell's and the former featherweight champion has touted him as a possible successor to Kilbane.

## MURDOCK FAILS IN EXPENSE FIGHT

WASHINGTON, April 18.—Representative Victor Murdock, progressive leader in the house, failed again today to secure publicity of campaign expense accounts of members during the last election and primaries.

Murdock wanted the house clerk to include the expense accounts in his annual report. Speaker Clark invited the motion and afterward ruled it "out of order."

Democrats objected to the expense of the publication without further consideration of Murdock's plan by a committee.

Representative Mann, twitted by Murdock, also proposing campaign publicity, intimated that some progressives who were contesting republican elections, had failed to comply with the law by filing expense accounts.

## M'CARTY GETS \$5,000 TO DEFEND TITLE

NEW YORK, April 18.—The great difference in the size of purses for boxing bouts between the east and west was emphasized today when it was announced that when Luther McCarty, who defends his title against Frank Moran in the St. Nicholas Athletic club April 30, will receive \$5,000. Last year Moran went twenty rounds with "Gunboat" Smith in California and reports stated that Moran cleaned up more of the mazzuma on that occasion than McCarty has been guaranteed here.

## SCENE OF RUIN WORSE THAN TOLD

Fred Hartwell Returns from Flood District Today; Says Help Is Needed

"The people of La Crosse have no conception of the damage wrought by the floods in Indiana, Ohio and Illinois," is the statement of Fred H. Hartwell, who returned from a trip to Terre Haute, Ind., today where he tried a case in circuit court.

"Many of the cities in the flood zone have not had train service for a month," said Mr. Hartwell, "and it will be months before good service can again be established. From my train windows I could see railroad tracks that had been carried out in the corn fields. Bridges were toppled over into the boiling torrents, wrecks of buildings, uprooted trees, huge beams that had formed other structures and general ruin covers the landscape. The fields are the most desolate I have ever seen. It will require years for the flood swept district to recover from the ruin."

"I can understand now why the first news of the disaster was so indefinite. With the water up to the second and third story windows and the railroad tracks swept away no man could communicate with the outside world. Wires were one tangled skein and often broken and carried away entirely. The people are in need of sympathy and assistance and much money is necessary to prevent severe suffering."

## EVELYN OF CHORUS IS MALE STUDENT

CHICAGO, April 18.—Harry Ackerburg, Northwestern university student and member of Sigma Alpha Epsilon fraternity, is in "right with the sorority queens again, the danger of his expulsion from the fraternity chapter is past, but there are deep chunks of gloom all over the campus."

Ackerburg's appearance in the junior play with a chorus girl introduced as "Evelyn" done up in the latest things Bulgarian, shocked the co-eds and delighted masculine students who were called to the first box front for an introduction to the beautiful "Evelyn."

Sorority sisters balked at occupying the same elevated railroad car with "Evelyn" on the return trip to Evanston. Later Ackerburg's fraternity brothers raised a rumpus. Today he admitted that the fair "Evelyn" with the clearest breath was John R. Davies, a student.

Some chronic sufferers from rheumatism are human barometers. They can recognize by the growing pains in their tender joints and muscles the slightest increase of moisture in the air, even a change in the direction of the wind.

Such a condition of supersensitiveness is always attended with thin blood. The watery, poison-laden fluid that fills the arteries must be built up and purified before there can be any progress toward permanent recovery. The problem of medicine is not to cure a single attack of rheumatism but to eradicate it from the system and strengthen the body to resist another attack. This can be done by building up the blood.

**MARTIN ALLEGED FORGER**  
MEMPHIS, Tenn., April 18.—Charges of forgery are today added to those of shortage made against Joseph W. Martin, cotton brokers, whose disappearance in London two weeks ago caused an international sensation. Warehouse men allege that the warehouse receipts for 500 bales of cotton on which Martin secured a loan of \$25,000 for his company are forgeries.

**LONDON, April 18.**—With the generally accepted belief today that Joseph W. Martin of Memphis, Tenn., met with no foul play, but has his own reasons for remaining in hiding, William J. Burns, the American detective, withdrew from active participation in the search for the missing banker and cotton broker.

## THE TRIBUNE'S Daily Short Story

### SAMUEL'S ADMIRATION

By JOHN DARLING

Copyright, 1913, by the McClure Newspaper Syndicate

Next to the young minister from the city, Samuel Spicer was the best catch in Beam's Corners, and in the eyes of Mehitable Smithers the minister lagged far behind in eligibility. Samuel Spicer undoubtedly had many points in his favor. He was postoffice clerk, to begin with; he was studying Spanish on the phonograph night and morning, subscribed to three magazines and sang tenor in the church quartet.

But Mehitable's eligibility lay entirely in the fact that she was Mehitable, and the coincidence that she was penniless, wholly dependent on the generosity of her kind-hearted uncle and aunt; that she knew no language but her own, and couldn't carry a tune, were facts that Samuel Spicer felt certain pleasurable sense of generosity in overlooking.

"Mehitable," he used to say as they sat on her uncle's front porch after the work at the postoffice was done for the day, "Mehitable, I can't get over thinking how wonderful it all is. To think that it was you—you out of all the girls in the world!"

This thought, though productive of a feeling of elation in the heart of Samuel Spicer, was far from stimulating to Mehitable. It did not seem at all wonderful to her that she had fallen in love with Samuel because he was quite obviously the most attractive and desirable man in Beam's Corners, and his superiority over the men in the other parts of the world she was perfectly willing to take on faith. But having a woman's tact she only pressed Samuel's hand tenderly when he aired this point of view, and then she tried to change the subject. But Samuel liked to dwell on it.

"Of course, I have known more beautiful women"—it seemed absurd to Mehitable to speak of the pretty girls in Beam's Corners as beautiful women, and obviously he had known no others—"and I have known cleverer ones and women with greater fortunes and with more accomplishments. I could admire them, Mehitable, but I could never love them."

Then Mehitable would smile playfully, though as a matter of fact she was ill-pleased with Samuel's would-be compliment.

When Mehitable got the first inkling of the fact that she was to inherit her great aunt's fortune—an inheritance large enough to make her by far the best-endowed young woman in Beam's Corners—she said nothing to Samuel about it. She waited till she was sure, waited, in fact, till she had the paper in her hand which proved the fact beyond a doubt. At last, thought she, at last she had the wherewithal to fill Samuel's greatest expectation. Now she could become accomplished, and she could buy the clothes that would make her beautiful, and learn languages not her own, and so demand Samuel's admiration as well as his love.

With hands that were cold with pent-up excitement and a heart that thumped like a trip-hammer in her young breast, she waited for Samuel one night to tell him of her great good fortune. While she was waiting she recalled the times that Samuel had told her that for her sake he was giving up the hours that he might have devoted to his own education. Now, thought Mehitable, there would be enough money for them both to gain an education and the accomplishments that were apparently part of Samuel's dream of happiness.

But when Mehitable told Samuel of her good fortune he seemed to fade away from her. He tried to smile and share her happiness.

"Samuel," she coaxed, thinking that he did not realize the truth of what she had told him, "it means many thousands of dollars for us both every year. It means that I shall have a chance to become ac-

complished, that I can dress as prettily as any girl you ever knew. It means that you can go to college if you want to—Sam, it is all your dreams come true."

But Samuel felt a disappointment that he did not understand. He wanted to know that he was everything to Mehitable.

"Samuel," Mehitable was saying, "just think, it will mean a college education for you. We will still be young when you are through—"

"I didn't know, Mehitable, that I wasn't good enough as I was," said Samuel, feeling the color coming into his cheeks. "I didn't know that just because you had a fortune in your own name that you would change your mind about me."

Mehitable tried to explain, but Samuel, though in his heart he knew that Mehitable had meant no offense, indulged his spirit of pique to the utmost. So it was that on the very day that people in Beam's Corners heard of Mehitable's good fortune, she returned to Samuel the little ring she had worn with so much pride for so many months. When autumn came she went to the city to school. The minister and her girl friends and her uncle and aunt went to see her off and Samuel, from a corner of the postoffice, watched with bitterness of heart as he saw the last gray cloud of smoke from the locomotive that carried her away.

Hard as this was it was not till weeks had increased to months that Samuel realized the depth of his loss. He thought of her as he had first known her—he recalled the appealing simplicity of her ways then and the delight she had shown in his various accomplishments. Mehitable Smithers was a thing of the past, and in her place was the wealthy Miss Smithers, who every day was growing further from him.

After three months Mehitable came back. She had not even told her aunt and uncle that she was coming and the fact was that she came only because she could stay away no longer.

It was early in the morning, about the time that most folks in Beam's Corners were having breakfast, that she stepped from the train that brought her from the city to her native home. The strange thing about it was that she was not in the least surprised at the time to see Samuel Spicer standing there, and then to see him run toward her and help her to alight. He helped her into his old buggy and took his seat beside her quite as if nothing had happened.

For a few minutes they drove on in silence. Then Samuel turned to her.

"Have you come home for good?" he asked her.

"Oh, yes," said Mehitable. "I couldn't stand being away any longer from—Beam's Corners."

Samuel felt strangely unable to express himself. He put one large hand gently over her little glove, thinking that she would understand. "I am sorry for what I did," it was finally managed to say. "It was all my fault." Then as he felt Mehitable draw away from him he became more fluent—told her with feeling that Mehitable did not know he possessed that he wanted her to forgive him and begin all over again.

Still Mehitable held off. "If you

loved me," she said at length, "I think you would have come to me in the city. You could have found out easily enough where the school was."

"Did I tell you?" Samuel exclaimed in surprise. "Didn't you know? How did you think I happened to be at the station at that time in the morning? Why, I thought, of course, I told you. I was just coming in to the city myself to find you." Samuel laughed as he thought of it. "It's funny how you happened to be coming in just the very morning I was going to get you." He drew a small cardboard from his pocket. "See, here is my ticket, if you don't believe me, and I have a substitute at the postoffice. You can see for yourself."

For a minute they were both silent.

"It seems a shame to have that substitute there for nothing," Samuel finally said. "And I have my ticket all paid for."

"Can't you go away?" Mehitable said.

"I don't somehow want to go—"

alone," said Samuel. Then he looked steadily at the girl at his side. She met his look and laughed.

"Why not, Mehitable," Samuel said after a minute more in which he had turned the buggy around and was driving back in the direction of the station. "No one expects us back here at Beam's Corners. You're all dressed for traveling. Come on; we can catch the next express if we hurry."

A Story of Sardou.

It happened at the Athenae in 1883. We were rehearsing the "Salome" of Armand Silvestre and Gabriel Pierné. Behind the scenes one day I encountered a man with an enormous muffer which went several times around his neck and a tall hat of a style that came down over his ears. I chatted with him in the indifferent French I had at command, and this without knowing who he was. While talking to him I noticed a hole in his shoe. He was aware of my discovery, I suppose, for he said to me: "I had that hole made expressly. I prefer a hole in my shoe to a pain in my foot." This man was Victorien Sardou.—Lois Fuller's "Fifteen Years of a Dancer's Life."

### BEAUTY OF SOUL

"Which will you choose, beauty of body or soul?" the spirit about to be clothed in the flesh was asked.

"Of body," she replied, dreaming of conquest.

And beauty of body only was hers.

"And thou?" was asked of another.

"Of soul," she replied.

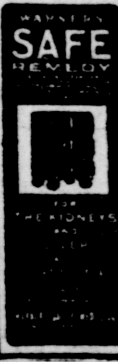

And, lo, both were given unto her! For truly it is impossible for one to be ugly who has a beautiful soul.—From the Writings of the Hindu Sage, Vishnusarman.

You will enjoy better health if you tune up the action of your liver occasionally. Because in winter there is relatively heavier eating to supply the extra heat required and comparatively less exercise in the open air, early spring is a good time to have an "organic housecleaning" to remove congestion and to stimulate the sluggish flow of blood through the liver.

The kidneys too require toning up after the greater work imposed upon them in winter. The best medicine for this purpose is

### SILK STRIKERS IN WAR WITH POLICE

One Shot and Several Hurt and Leaders Prepare to Ship Children Away

PATERSON, N. J., April 18.—Paterson's great silk industry today faces the crisis in the strike of its 27,000 workers. Rendered desperate by more than eight weeks of idleness, certain branches of the strikers have become daily more difficult to restrain, particularly the dyers and their helpers. These men form the bulk of the unskilled labor, and, as in previous silk mills strikes, have been the first to resort to violence.

The action of the silk manufacturers in sending to Newark for "Detective" Jerry O'Brien's band of "strong arm" men and "strike killers" aroused the fury of the dye house workers. Two of O'Brien's men are under arrest today for the shooting of Antonio Vischio, during a disturbance in front of the Weissmann dye works. Vischio is said to be dying.

Another striker is in critical condition from a fractured skull, and half a dozen were slightly hurt in the battle that followed the attempt of the police to disperse the crowd. So serious has the situation become that the I. W. W. leaders are rushing plans to send 5,000 of the children whose parents are strikers, to New York to be cared for by sympathizers until relief comes.

### WATER POWER BILL IS ON NEW LINES

Measure Introduced in the Senate This Morning Lays Down Broad Policy for the State

#### AIMS AT STATE OWNERSHIP IN END

State Agencies Means Planned to Develop Resources and Improve Navigation

MADISON, Wis., April 18.—A most comprehensive water power bill, the work of diligent research and investigation, was presented in the senate this morning by the special committee on conservation of the senate.

The bill lays down a broad state policy. The old theory of private, unregulated development of water powers is abandoned. A new policy of state regulation and control of river improvement and water power development is proposed. The dominating purposes of the bill are to create corporations for the sole purpose of improving navigation, and for the encouraging and securing of complete development of state water power resources by state agencies, thereby safeguarding all public and private rights. This measure lays the foundation of what is hoped will eventually lead to the acquisition by the state of all of its water powers developed in the future.

This committee which drafted this bill is composed of Senators Huston, Rosshard and Tompkins. A public hearing on this bill has been fixed for Friday afternoon, April 25th.

Under the terms of this bill water powers in the state of Wisconsin are divided into two classes; those developing 250 horse power or more, and those under 250 horse power.

To Create State Agencies The main idea of the first part of the bill is to create state agencies in the form of corporations and to delegate to them certain powers for the improvement of navigation, improvement of rivers, charging of tolls, and the development, sale and distribution of hydraulic and hydro-electric power.

It permits water power companies to charge toll on their river improvements, to earn a reasonable return on their investment, and to establish a depreciation fund. A part of a surplus to be permitted is diverted into a state trust fund. This fund is to be held by the state, both as a sinking fund for the corporation, and if unused it may be applied by the state toward the acquisition of the water power property. Until the state has adopted a constitutional amendment which will permit it to acquire reservoirs and water powers, the levying of a tax for the purchase of water powers on the part of the state cannot be made. This bill, however, reserves all of the rights of the state and permits the building up of a fund which will in time turn the properties over to the state without levying any tax therefor. In the meantime, the bill is calculated to encourage the full and complete development of the water powers of the state and to protect all public and private interests.

Commission to Have Supervision All dams and other properties necessary for the improvement of navigation and the development of hydraulic and hydro-electric power are to be constructed, maintained and operated under the direct supervision of the railroad commission. The waterpower corporations can engage in no other business than that specified in the bill.

The bill is divided into three parts. The first part of the proposed law is applicable to dams of over 250 horse power capacity. The second part of the bill relates to dams under 250 horse power capacity, and the third part relates to the dam construction and water-power development, both past and future.

The bill gives municipalities power to take over these properties at any time by paying a fair compensation. The railroad commission is given adequate power in the supervision of the construction of dams which the committee consider is necessary in the interests of public safety and in the promotion of public rights.

### POLITICIAN KILLS SELF ON IMPULSE

John E. W. Wayman of Chicago Fires Two Shots Into Himself Without Any Reason

#### WAS SUFFERING FROM OVERWORK

Was Man Who Cleaned the Red Light District to Teach the People Lesson

CHICAGO, April 18.—John E. W. Wayman, former state's attorney of Cook county and prominent republican politician, died early this morning after shooting himself twice below the heart late yesterday afternoon.

"Boys, I must have had a little sand in my gear box," was Wayman's dry comment when explaining his act to his friends last night by the bedside.

"I hope I will recover," he continued.

#### Ignored Warning

After quitting the service of the state as Cook county's attorney, Wayman reopened a private law office, despite the warnings of his physicians. Finally, in order to get him away from the strain of the work, his physician invented the subterfuge of appendicitis, telling the patient he must cease physical and mental activities in order to prepare for an operation. He was ordered to his home.

The revolver used by Wayman is an automatic. He had been given the weapon by a client who had used it with fatal effects in a shooting affair. After Wayman arrived home yesterday he decided to work up his defense for his client and took the gun from his closet.

In examining the mechanism, Wayman said he was suddenly seized with an impulse to end his life. Turning the gun on himself, he pulled the trigger. The rapidity with which the automatic magazine worked caused it to fire two bullets, each of which entered near the heart.

Mrs. Wayman found her husband lying in a pool of blood. George C. Bour, a friend of Wayman, was passing.

#### Can't Explain Act

"I've made an awful fool of myself," said the stricken attorney as Bour reached him. "I just acted on the impulse and really don't know why I did it."

Wayman's last official act was the most spectacular of his career. Personally a believer in the segregation of vice during his term in office he had been bitterly attacked by reformers. Finally, a few weeks before his retirement as state's attorney he conducted with the assistance of his own detectives and in defiance of the police a series of raids on the Chicago "red light" district which practically cleared out the resorts and from which the segregated district has never recovered. He openly stated that he believed his act would scatter the social evil over Chicago and the public would be glad to go back to the segregated plan. His avowed aim was to give the public an object lesson.

### NOT ENOUGH BABES TO MEET DEMAND

CHICAGO, April 18.—That the demand for orphan babies in Chicago is always greater than the supply and that girl-mothers are hired out by institutions to nurse strange babies while their own infants are fed with a bottle, was the testimony offered today by Dr. F. W. Birney, head of a local sanitarium, in testifying before the legislative committee investigating home finding institutions.

### PRIEST GETS ORDER BARRING THE BIBLE

MANKATO, Minn., April 18.—Rev. Father Robert Hughes, pastor of St. John's Catholic church, has procured a temporary restraining order against the president of the local school board, to stop the reading of the bible and other so-called religious exercise in the high school. Customs and usages of the "Orthodox Evangelical churches" enter into the exercises, and the King James version of the bible, which is not accepted by the Roman Catholic church is read, according to the complaint.

### LA FOLLETTE HITS GOPHER GOVERNOR

ST. PAUL, Minn., April 18.—U. S. Senator Robert M. La Follette today knocked the props from under Governor Eberhart and other backers of the state utilities commission scheme.

In vetoing the Nolan bill the governor declared that Senator La Follette was a champion of state regulation. Since then the governor's supporters have been asserting that La Follette in his magazine endorsed the Knapp and Wallace bills, the former of which was killed by the house.

Senator La Follette today sent a telegram from Washington to C. F. Keyes, chairman of the Hennepin county progressive league, declaring he did not know that there was any public utilities bill before the Minnesota legislature and concluding:

"I cannot cover the propositions of a proper utilities bill in a telegram nor specify the vices of a particular measure, but I have never said anything on the subject which any reactionary could afford to quote."

NEW COUNCIL IN POWER AT SPARTA

SPARTA, Wis., April 18.—Mayor McMillan called the old council together for the last time Tuesday evening and after a bit of routine business, they adjourned and the 1913-14 council assembled and met after the city clerk had administered the oath of office to the new aldermen, who were Jefferson and Brooks, and the two who were re-elected, Smith and Kowitz.

Mayor McMillan in an oral message to the council urged that a great deal of work be done on the streets this year, for the reason that they are in a deplorable condition. He said that in as much as no work was done last year, the city should make up for it this year. He also suggested that the wages of the laborers and also of men with

teams, which are fixed by ordinance, be increased; that it was practically impossible to get men to work at the present wages. County Highway Commissioner Teall is employing all the men and teams he can get at wages in advance of the city's wages and as a result he gets the help.

Mayor McMillan appointed the following committees: Streets, Kowitz, Baldwin and Jefferson; sewers, Smith, Jones, Burton; finance, Baldwin, Burton, Brooks; public buildings, Jefferson, Brooks, Kowitz; accounts, Burton, Smith, Jones; ordinances, Brooks, Smith, Sutherland; printing, Jones, Smith, Sutherland; lighting, Smith, Baldwin, Burton.

Much interest is manifested in the personnel of the different committees and a general shake up occurred. On the street committee Kowitz is the chairman, succeeding Conger who failed of re-election. Jefferson, a new man, takes the place of Jones who served on the committee last year. Much friction occurred in that committee as it was made up last year, owing to the desire of some members to pave Montgomery street from Water street to Rusk avenue and the wish of others, backed by the mayor, to stop the Montgomery street paving at Kent street, which is the west line of the Z. K. Jewett & Company's property. The sewer

committee remains in charge of Alderman Smith, who is the best informed man in our city as to the sewer system and who has done very good work as chairman of that committee. Alderman Jones goes on the sewer committee in place of Kowitz which makes an exchange of places. The changes in the other committee memberships are not of great importance because the work will not be important compared with the work of the street and sewer committees. Wm. H. Blyton was elected city clerk by the council; William Burton, president of the council; Z. S. Rice, city attorney; E. I. Waring, street commissioner and G. F. Lillie, supervisor to be a member of the board of review. Mayor McMillan appointed Dr. V. W. Stiles and Alderman F. E. Baldwin health officers and Nels Hanson park policeman.

## A CHANDLER LADY TESTIFIES

Makes a Few Plain Statements Regarding Past Troubles Which Are Very Interesting

Chandler, Okla.—“For six years, I suffered with severe pains in the pit of my stomach, back and sides,” writes Mrs. Ella Flowers from this place. “I tried several different medicines, but did not get any relief. When I first wrote you for advice, I thought I was past help, but can truthfully say that Cardui, the woman's tonic, relieved me at once. I gained at least 10 pounds, and everybody says I look so much better. I hardly know how to thank you for the good that Cardui has done me.

If you think that the publication of this letter will be the means of inducing other suffering women to try Cardui, publish it by all means.”

There are thousands of women today, suffering from some form of womanly trouble. Are you of this number? If so, have you tried Cardui, as Mrs. Flowers did? Have you read her symptoms? Do they seem similar to yours? Cardui made her well, as it has made many other ladies well. Why shouldn't it make you well, too? We think it will. Try it. It is a gentle remedy, prepared from nature's roots and herbs with no bad after-effects.

Get a bottle of Cardui, today. At the nearest drug store.

## BOB URGES RECORD OF CAUCUS DOINGS

Wisconsin Senator in Editorial Outlines the Reforms Needed in Congress

MADISON, Wis., April 18.—“The rules of the house of representatives should be so changed as to require caucuses and committees to make and keep for public inspection a record of every act of such organizations involving the public business.”

This is Senator La Follette's advice, contained in an editorial on “Democratizing the Senate” in today's issue of his magazine. By its caucus action, he continues, the democratic majority has promised as a partial reform, and to make it permanent he proposes that it be incorporated as a part of the senate's code of procedure. This is the senate's resolution providing that a majority of a committee may call the committee together at any time to consider any pending bill; that a majority of members of committee may name sub-committees to consider pending bills and report them for action by the full committee; and that a majority of the majority members of any committee may name committees to confer with house conferees on any bill upon which the two houses have disagreed.

“But more than this,” adds Senator La Follette, “the rules of the senate must be so changed as to provide for the election of members of committees by the senate, pursuant to a direct primary conducted by each party organization under regulations prescribed by senate rules.”

When all committee conference and caucus proceedings are recorded in permanent records and all proceedings touching legislation are open to the public, “then, and not until then,” he concludes, “will the senate be truly democratized.”

## “A cow that gives two quarts of milk and refrains from putting her foot in it, is far more valuable than the one that gives ten quarts and then kicks it over.”

And it's the same way with clothes. Most any suit looks well when you buy it, but the thing that is most important to you is how it looks after you've worn it several months.

Let us prove to you, that the giving of such strict attention to many little details in the making of our garments assures the wearer longer service and better appearance. Quite a few men don't care and don't notice the difference, but perhaps YOU are one of the many who do. If so, you are just the man who will appreciate the extra painstaking tailoring in our garments.

Some men have the mistaken impression that, because we sell such good clothes, our prices are high. Nothing will surprise you more than to make a comparison between our goods and prices with those elsewhere.

The council confirmed these appointments and then adjourned.

Things look as though there would be less friction among the city authorities this year than there has been in the past and as though there would be more work accomplished. The plan to pave Montgomery street last year and assess the abutting property owners, has been abandoned for a plan to build a macadam roadway through the center of the street after the manner in which County Highway Commissioner Teall is improving the roads, at the city's expense, and thus save these property owners from great hardships of the paving assessment. The owners of property on the outskirts of the city, such as East Montgomery street is assessed for paving, would be obliged to pay sums far in excess of the total value of their property without receiving any benefit. In as much as the street improvement is really for the benefit of farmers coming in to the town and its main object is a hard road, the macadam roadway plan seems to be the best. The city has built macadam roadways from each depot toward the center of the city and on other main traveled streets, free of charge to property owners and it will probably continue this policy this year.

Captain Scott's Variety.

The varied knowledge of Captain Scott, the antarctic hero, was amazing. “Physicist, biologist, zoologist or geologist,” says Mr. Ponting, the official photographer who accompanied the last expedition, “he could meet them all on their own ground and discuss the most intricate details of the science which was their speciality. I once asked him how he managed to keep up so many things. ‘My dear fellow,’ he replied—‘a favorite expression—I simply make a bluff of it. I really know very little about these things.’ That was only his modesty. He left no stone unturned to master everything bearing on the work he had in hand.”

## I. W. W. PRISONERS ON HUNGER STRIKE

DENVER, April 18.—Following the example set by the suffragettes sentenced to jail in London, nearly sixty members of the Industrial Workers of the World confined in the city jail yesterday resolved to start a “hunger strike.”

The resolution was passed after a meeting held in the “bull pen” and in the “work room.” Since the men were placed in jail Monday, they have been given nothing to eat but bread and water. They have protested in vain. Yesterday they decided to act, and they unanimously agreed that unless the members of their organization were given the same kind of meals as the other prisoners in the jail, they would refuse to eat at all.

When the jail attendants brought the loaves of bread into the cells the prisoners refused to accept them.

When a Man's Hungry.

Captain Amundsen in a lecture told of the hardships, especially the hardships of hunger, attendant on arctic expeditions.

“And it is an unfortunate fact,” said the discoverer of the south pole, “that hunger is always accompanied by a vivid remembrance of the most delectable food one has ever eaten. While compelled to live for six months on one month's provisions, helped out perhaps by a little seal meat and seal blubber, you are tormented by visions of former banquets, Christmas dinners at home and certain favorite dishes. Yes, if you are hungry the thought of fine food is exquisite torture.”

Russia Drenched in Tea.

“The British workman cannot live without his beer, and the Russian cannot live without his tea,” says Rathay Reynolds in “My Russian Year.” “In the postoffice the young woman who sells one stamp has probably a glass of tea at her side. In government offices, banks and newspaper offices tea is perpetually going. At railway stations boys come into the train with glasses of tea. At night cabmen and doormen buy tea from the men who come around with great samovars swathed in cloths and tumblers stuck into little pockets on their belts. Na tohai, for tea, is the Russian for back-sheesh. Always, everywhere, golden tea.”

In his book about "The Fetish Folk of West Africa" R. H. Milligan says in a chapter on African music: "There is no doubt that music is the art form of the negro. He is the most musical person living. His entire emotional life he utters in song. He has not yet done any great thing. His day is still future. But I believe that when he comes he will come singing."

## Spring Time Is Blood Cleaning Time

Wonderful How Quickly Your Entire System Awakens When the Blood is Cleaned.

Let S. S. S. Rid You of All Blood Disorders.

If you are down with rheumatism; if you sneeze, feel chilled, are choked with catarrh, have a cough, or your skin is pimply and irritated with order, just remember that almost all the ills of life come from impure blood. And you can easily give your blood a good, thorough cleansing, a bath, by using S. S. S. There is no need for anyone to be dependent upon the illness of blood impurities. No matter how badly they attack the system, or how unsightly becomes the skin, just remember there is one ingredient in S. S. S. that so stimulates the cellular tissues throughout the body that each part selects its own essential nutriment from the blood. This means that all decay, all breaking down of the tissues, is checked and repair work begins. S. S. S. has such a specific influence on all local cells as to preserve their mutual welfare and afford a proper relative assistance to each other. More attention is being given to constructive medicine than ever before and S. S. S. is the highest achievement in this line. For many years people relied upon mercury, iodide of potash, arsenic, "physics," cathartics and "dope" as remedies for blood sickness, but now the pure, vegetable S. S. S. is their safeguard. You can get S. S. S. in any drug store, but insist upon having it. And you should take no chance by permitting anyone to recommend a substitute. And if your blood condition is such that you would like to consult a specialist freely and confidentially, address the Medical Dept., The Swift Specific Company, 137 Swift Bldg., Atlanta, Ga.

Melvin Finstad was at Coon Valley Monday for medical aid. Mr. Finstad had the misfortune to have blood poison set in a wound on his hand. Bert Gardner was at La Crosse on Tuesday on business. B. Rannetsberger returned to his home in Gaslyn, Wis., after a several days visit with friends and relatives here. The work of excavating the basement for the new Rudolph Schlicht residence has been commenced and work on the wall will be started at an early date. Mrs. T. Christopherson departed Saturday for Coon Valley where she will make her future home. H. M. Schallert returned Tuesday from a several days business trip and visit in the southern part of the state. Ed Rumsey and wife of Viroqua, visited friends and relatives here on Tuesday. August Krause and wife of Genoa spent Saturday and Sunday here visiting relatives. The local ball team plays a return game with the Rustic Reds on Sunday morning, April 20. The game will be called at 9:30 and will be played on the Otto Lenser diamond.

Saturday evening a number of friends surprised Carl Rochelt at his home in honor of his ninth birthday. The evening was pleasantly spent

## NEED GOOD CORSET FOR RIGHT EFFECT

Corsetless Figure Is Latest and It Requires the Most Careful Kind of Fitting

## PETTICOATS WELCOMED BACK

Skirts and Petticoats for the New Season Are Slashed and Give Glimpses!

By MARGARET MASON (Written for the United Press.) The Spring Fashion Girl, Quite a cut-up is she. For her skirts are slashed To the height of her knee.

The question's an open one Therefore you see As to what she will wear For her spring lingerie.

NEW YORK, April 18.—There are a great many things going on under cover these days, but a great many more coming off. Corsets and petticoats have been discarded with reckless abandon and now combinations are dropping off the shoulders like petals from the last rose of summer.

To be sure to attain just the proper uncorseted figure it is paradoxically necessary to have the most carefully fitted corset. Milady is svelte indeed who can afford to shed that all-embracing article altogether. She will find it safer and snugger to select one of the new models, long, low of bust and stout of material—and gird herself therein. The very newest stays are all below the belt with the bust left unsupported. For the really buxom beauty, however, the brassieres have reached such a degree of perfection that any figure may be neat if not exactly natty.

## Welcome Petticoats

Though once cast aside, the petticoat is now being welcomed back like a prodigal son, and many a "fatty calf" is being prepared for its coming. The 1913 model seems born anew in a more ethereal form of filmy lace and diaphanous chiffon. As your skirt is slashed, so must your petticoat be and this offers many possibilities for decoration.

Made of azure, pink or white crepe de chine, trimmed in lace or point d'esprit, they are truly irresistible. Van Dyke points of German val set in the bottom of a skirt, each point sparkling with a tiny brilliant, give individuality to one effective model. Deep ruffles of pleated lace or net caught with rosettes make another exquisite finish. Silk mail is another popular lingerie material that is sharing honors with fine batiste or the new voile linen which is extremely sheer and launders beautifully.

## Cut Princess

Combinations in all these materials are most attractive cut on princess lines, the seams being joined with lace insertion or entre deux. Shown in the new drop-off-the-shoulder effects they draw up with a ribbon straight around under the arm pits and over the bust; sometimes they are given a more stable appearance by a narrow flesh color ribbon band over each shoulder. They are the necessary outcome of the transparent bodices and sleeves on the newest evening gowns. Shirring and tiny tucks, insets of lace and embroidery, rosettes, rosebuds and bows riot in profusion over the upper part of the combination and finish them below. If you are handy with your needle and ingenious in designing let your fancy rove at will and your lingerie will be fit for Queen Titania.

Unless you are particularly fussy about the fetish, "made by hand" you will find that the most charming combinations and petticoats can be purchased ready made at surprisingly low cost. As the chief essential of the new lingerie is its perfect fit, the ready-made garments have the advantage over the home-made products, of having been shaped by expert cutters.

## Nighties Lovelier

Cut kimona style or empire, the spring nighties grow lovelier and more charming as they grow thinner and thinner. In more ways than one they are sheer works of art. Most of them are so sheer, in fact, that a little bed jacket of crepe de chine or French flannel is a comfortable adjunct these cool spring mornings for the convalescent or the fortunate languid lady who breakfasts luxuriously "au lit."

And then to cap the climax, as twere, are the coquettish breakfast caps that frame the face in a froth of lace and at the same time cover any short-comings—or rather combings—of your natural coiffure. These dainty confections are indeed and in fact a first aid to beauty in distress. Whether a mob cap of colored crepe de chine frilled in pleated lace and caught with a tiny rosebud or two, or Dutch snoods of Irish lace or coils of embroidery and net, they are all recherche. So size up your type of countenance and cap it becomingly. As honeymoon adjuncts these fetching snoods are unequalled. Breakfasts opposite a captivating cap are sure to be capital.

## Adorable Sachets

The most adorable little sachets to be tucked amid the laces of your lingerie come in sets of six or twelve these days. In color and shape they simulate the flowers with whose fragrance their little insides are stuffed. You may have a packet of assorted perfumes—one for each day of the week, or you may adopt one distinctive perfume as your own and order your sachets unvaried.

Following the Oriental trend of the fashions the seductive scents of the Orient are high in favor and flavor just now, and if you smell

## CREAM SEPARATORS

Cost More than Other Separators

## And Are Worth More

Price, \$25 and up

You would not expect to buy the best cow in a herd for the same price as the poorest cow. Neither would you sell your most productive cow at as cheap a price as your least productive cow. So it is with the United States Cream Separators.

The very fact that the U. S. has won such awards as The World's Record for Close Skimming and the Grand Prize at Seattle are obvious proofs of highest excellence.

The very fact that a United States Cream Separator (containing non-rusting nickel silver skimming sections) can be mechanically cleaned in only half the time needed to wash other separators is a priceless boon to any farmer's wife.

The very fact that the United States is the most simple and convenient with its light running, automatic oiling, thorough flushing and enclosed gears has caused the best known and practical dairy men to select it for their own use.

We do not claim to give you something for nothing any more than you would give us your best cow; but we can sell you, at a fair price, the cream separator you will admit to be the best you have ever seen, if you will simply give it a free trial at your home.

## OHIO PHYSICIAN ON TRIAL FOR LIFE; KILLED WIFE BY POISON, IS CHARGE

Mrs. Florence Cavileer Smith and Dr. Arthur B. Smith.

After four months of preparation, during which time every legal expediency known has been exercised in his behalf by his attorneys, Dr. Arthur B. Smith, prominent physician of Springfield, O., went on trial for his life Tuesday morning on an indictment charging him with having poisoned his wife, Florence Cavileer Smith, well known in church and social circles of Springfield.

The indictment against Smith charges in three counts that some time previous to March 18, 1912, he administered cyanide to his wife

# A PROCLAMATION

YOU MAY COMPARE  
YOU MAY FIND MY EQUAL

**B**UT you CAN'T excel my ability as a refracting optician and specialist in the Conservation of Vision and Modern Optometry.

My methods of examination, and grinding my lenses for your visual defects are my own, and I boast of such noted patients as the late Gov. John A. Johnson, of Minnesota, whose letter of recommendation I have published, and now comes this letter from one of Sparta's own citizens:

Sparta, Wis., Aug. 6, 1912.

To Whom It May Concern:—

A desire to aid those who have been afflicted as I have been, coupled with a sense of justice to Dr. Evenson for his services to myself, prompts the following history:

As far back as I can remember I have had weak eyes, but as is far too often the case, they were neglected, until in 1901 they had become so bad that I had to leave the La Crosse High school. In 1902, I think it was, I went to see Dr. —, one of the prominent oculists of La Crosse. He "fitted" me with glasses, and soon after "fitted" me again. My eyes grew steadily worse. I suffered from headache and neuralgia of the eyes, until I thought I should go insane.

After having my glasses changed three or four times in less than two years, I went to see Dr. —, another prominent oculist of the city. Here I had but little, if any better success, and was finally forced to go on a farm with the hope that this might help my eyes.

After having them changed several times I got disgusted and quit using them. This was in 1905, I think.

Five years later a brother who had had a good deal of trouble with his eyes, and had finally been properly fitted by Dr. Evenson, advised me to go there. I declined, as I had no confidence in the ability of anyone to fit my eyes.

However, after repeated urging, I went, but without any hope whatever. I was examined, and while Dr. Evenson admitted that mine was an extreme case, he believed that he could properly fit me. His confidence was justified, for I immediately felt a decided change for the better. The headaches, to a great extent, left me, my eyes grew steadily stronger, and the neuralgia disappeared. I could read at any and all times, without tiring my eyes.

Recently I have had them changed, and while Dr. Evenson holds out no hope for an increase in vision, he does believe that my eyes will become stronger, and from my experience with his work, I believe that his confidence will be more than justified.

MARTIN LARSEN.

I grind my own lenses; no delays; you get the glasses same day. I examine your eyes.

Large cities cannot furnish any better service and I have no free examinations. "Eyes Examined Free" is the sign of the faker."

Women rarely know what a contempt they have for society until they find themselves cut by it.

Many a man has married in haste and paid alimony at leisure.

A woman sits down and waits for temptation to come along, but a man usually meets it half way.

Life is a conundrum that everybody gives up sooner or later.

## DON'T STAY GRAY! SAGE TEA WILL DARKEN YOUR HAIR BEAUTIFULLY

A Mixture of Sage and Sulphur Prevents Dandruff and Falling Hair.

When you darken your hair with Sage Tea and Sulphur no one can tell, because it's done so naturally; so evenly. It is also splendid to remove dandruff, cure itching scalp and stop falling hair.

Preparing this mixture, though, at home is a messy and troublesome task. For about 50 cents a bottle you can buy at any drug store the ready-to-use tonic called, "Wyeth's Sage and Sulphur Hair Remedy." Some druggists put this mixture up themselves but make it too sticky, so insist you want "Wyeth's" then there will be no disappointment.

You just dampen a sponge or soft brush with "Wyeth's Sage and Sulphur" and draw it through your hair, taking one small strand at a time. Do this at night and by morning all gray hair disappears and after another application or two becomes beautifully darkened and more glossy and luxuriant than ever. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and you'll look years younger. Inquiry shows all pharmacists in town here sell lots of it. O. T. Erhart, agent.

## HYGIENE CONGRESS MEETS IN BUFFALO

Fourth International Convention to Be Held in the United States August 25-30

BENEFITS THE ENTIRE WORLD

Men of Science of All Nations to Attend; Exhibits to Be Instructive

All the leading nations, every state in the union, every college and university of note in this country and various other leading educational, scientific, medical and hygienic institutions and organizations as well as various women's organizations, will be represented at the fourth international congress on school hygiene in Buffalo August 25-30, according to a preliminary statement just issued by Dr. Thomas A. Storey of the college of the city of New York, secretary general of the congress.

Woodrow Wilson, as president of the United States, has accepted the honorary office of patron of the congress. The president of the congress is C. W. Elliot, one time president of Harvard university. The vice presidents are Dr. Wm. H. Welch, the great pathologist of John Hopkins university, formerly president of the American Medical association, and Dr. Henry P. Walcott, president of the recent international congress on hygiene and demography, and chairman of the Massachusetts state board of health.

It is the aim of the organizing committee in charge to bring together at Buffalo a record number of men and women interested in improving the health and efficiency of school children, and to make this congress—the first of its kind ever held in America—one of direct benefit to each individual community. A program of papers and discussions is now being arranged covering the entire field of school hygiene. There will be scientific exhibits representing the best that is being done in school hygiene, and also commercial exhibits of educational value.

Nor will the entertainment of delegates in any way be neglected. Buffalo has just subscribed \$40,000 toward covering the expenses of the congress. The Buffalo citizens' committee has planned for a series of social events, including receptions and a grand ball, a pageant in the park and excursion trips to the great industrial plants, and to the scenic wonders of Niagara Falls.

The congress is open to all persons interested in school technique, who may join as regular active members upon the payment of a \$5 fee. Application for membership should be sent to Dr. Thomas A. Storey, college of the city of New York, New York city.

The list of honorary presidents contains the names of prominent men in foreign countries who have been active in the interest of school hygiene and in the support of this congress.

### WOMAN BURNS TO DEATH

ABERDEEN, S. D., April 18.—Mrs. Frank M. Fisher, prominent society woman of this city, was burned to death today in a most terrible manner. She went into the garage in the rear of her home to procure

some gasoline for use in the house when in some manner the gasoline exploded, setting fire to her clothing. She rushed out of the garage and a gardener working near hurried to her assistance, extinguishing the flames with water but not until after her clothing had burned entirely off her.

### MAY LICENSE FRIEDMANN

WASHINGTON, April 18.—Preparing the way for Dr. F. F. Friedmann to make the national capital his headquarters for all future work in America, Senator Hughes of New

Jersey today introduced in the upper house a bill granting to the tuberculosis specialist a license to practice medicine and surgery in the District of Columbia.

Senator Hughes is said to have been assured by Dr. Friedmann that he will be glad to come to this city to practice so long as he stays in America. As his plans for the distribution of his remedy for the "white plague" are all based on cooperation with the national government, Dr. Friedmann is said to be anxious to open headquarters as soon as possible.

Conductor Joseph Greely Loses Leg in Accident at Louisa, Iowa

Friends of Neil McKay, a former resident of Caledonia, Minn., and well known among railroad men of the north side, heard this morning of an accident which he was in near Arlington, S. D., when a passenger train on the C. & N. W., of which he was engineer, went into the ditch, while running at a high rate of speed.

An investigation of the wreck showed that a burr placed on the track by children was the cause. The locomotive, mail car and smoker were derailed. Engineer McKay was badly scalded and bruised, but will recover.

A message was received here this morning of an accident which occurred to Conductor Joseph Greely of the Milwaukee at Cedar Rapids, in which his left leg was crushed near the hip, so that amputation was necessary. The accident happened at Louisa, the first station west of Marion, Iowa. Greely was taken to Cedar Rapids on a special train.

### MISS IDA O'LEARY GIVEN A SURPRISE

Miss Ida O'Leary was pleasantly surprised at her home, 1916 George street Tuesday evening by a number of her friends. Miss O'Leary will soon leave the city for St. Paul, where she intends to make her future home.

The evening was spent in games and dancing, after which a luncheon was served. Miss O'Leary was presented with a locket and chain as a remembrance of her friends. Those present were: Esther Zimmer, Evelyn and Lillian Faas, Julia and Theresa Severson, Mary and Eva Ryan, Fern Nichols, Myrtle Eng, Gladys Sheely, Stella Hanson, Genevieve Jorgenson and Myrtle McReynolds.

### HELEN SWINZROD WEDS MINNESOTAN

Miss Helen Swinzrod, daughter of Mr. and Mrs. A. Swinzrod, 306 Caledonia street, and Leonard W. Kumlin, Austin, Minn., were married on Tuesday afternoon at the St. James parsonage by Father Ambrose Murphy. Miss Edna Byrne and Alois Swinzrod attended the couple.

A wedding dinner was afterwards held at the home of the bride's parents. Mr. and Mrs. Kumlin left the same evening for Minneapolis. Later they will go to Austin, Minn., where the groom is in business.

### MRS. EDNA CULP DIES OF TUBERCULOSIS

Mrs. Edna Culp, 1614 Wood street, died at her home at 12 o'clock yesterday, after an illness of six months. Death was caused by consumption. She is survived by her husband, J. W. Culp, an engineer on the Chicago, Burlington and Quincy railroad, two sons and one daughter.

The funeral services will be held from the home Sunday at 2 o'clock and at 2:30 from the Caledonia St. Methodist church. H. E. Frazer will officiate. Interment will be made in Oak Grove cemetery.

### PRAIRIE FIRE HITS INDIAN RESERVATION

BISMARCK, N. D., April 18.—About \$150,000 damage was done by a prairie fire on the Standing Rock Indian Reservation today. The fire burned over a vast distance, destroying the sheds and stock of the Hawkeye Lumber company at Cannonball and also destroying four farm houses and eleven barns in its course. All of the losses were sustained by Indians.

### BURNED OUT RIVALS

DANVILLE, Ill., April 18.—A. V. McMillan, Villa Grove restaurateur, had original ideas about destroying competition, according to Deputy State Fire Marshal Sloan, who today arrested McMillan on the charge of arson. Sloan accuses McMillan of setting fire to restaurants of his three competitors in Villa Grove.

Again tomorrow (Saturday), for the last day of our spring opening week a souvenir box of candy free with every purchase of 50c and over. The Continental Clothing House.

### CENTERING WORK OF IMPORTANCE

Eyeglasses to Give Proper Service Should Be Tested for Their Accuracy

Some time ago the current magazines contained long articles condemning oculists and opticians for furnishing their patients with lenses which were off-center, and not having any means of telling whether the lenses were accurately centered or not.

They had in mind, that many of the lenses furnished to them by the manufacturers were not made so that the optical center was in the center of the lens, and therefore contained prismatic power.

This prismatic power affects the external muscles of the eyes, which control the rotations of the eye-balls, and causes diplopia or crossed eyes, to a moderate or greater degree, according to the amount of discentering in the lenses when ground.

Tiring to Eyes Wearing lenses off-center does not promote good binocular vision and is tiring to the eyes, and should be avoided.

To warn against the occurrence of such lenses falling into the hands of a wearer, there has been manufactured an instrument of great precision, which will determine accurately the absolute optical center of a lens.

Such an instrument is in the office of H. C. Evenson, the optician, and a demonstration of its importance in the furnishing of perfect lenses, leaves no wonder at the articles in the magazines, for this instrument seems to be a necessity to all opticians, if they wish to test the accuracy of their product, before handing their glasses to the public.

These discentered lenses are called second and third quality, and are used by the large manufacturers to make cheap glasses for the market, and thus avoid a total loss of materials.

People who buy glasses over the counter, and obtain their glasses of the unscrupulous fellows who wish to sell a pair, run the greatest chance of harm to their eyes, because the discentered lenses are found among their stock.

Is Expensive While the instrument is expensive, it is necessary, if the optician wishes to prevent inaccurate lenses from getting into his patient's hands, when he gets the glasses from the manufacturer. He checks the manufacturer's mistakes, in other words.

### GIRLS LEARN WHY SMITH LEFT HOME

CHICAGO, April 17.—Several hundred high school girls, prospective housewives who visited the Union Stock Yards to learn how to choose the best cuts of meat, at the same time got some brand new tips from Mrs. Ida May Pryce on the old problem, "Why Smith Left Home."

Mrs. Pryce, a teacher in domestic economy, conducted the demonstration. Bridge whist, she explained, was one of the reasons for Smith's departure; the other, she explained in an epigram: "God sends the food; but Satan sends the cooks."

### ASK HONOR SYSTEM.

MADISON, Wis., April 18.—Women of the University of Wisconsin have undertaken a campaign to secure the "honor system" in examinations, etc., at the university. They have secured a series of interviews with prominent women students and women members of the university faculty to show the attitude of the women themselves on the question. Mrs. Lois K. Mathews, dean of women at the university, declared: "I wish the girls would continue the campaign they have begun for bringing the honor system seriously to the minds of the students. I wish very much to know whether the majority of the girls would be willing to adopt it, and whether they would be willing to consider in their own self-government court cases of infraction of the system."

### STUDENTS JOIN NAVY.

MADISON, Wis., April 18.—One student in the college of engineering of the University of Wisconsin has definitely accepted the offer of the United States navy department to gain experience aboard United States battleships during the summer months, and six others may decide to accept the offer. These students will not be enlisted but must obey all orders of superior officers. They will be given training in navigation, gunnery and other phases of naval routine.

### A Statue in a River.

About 100 feet south of the Gun Hill road bridge, in the middle of the Bronx river, in New York, stands a life size statue of an American infantryman made of stone and mounted on a six foot shaft. The town of Williamsbridge had offered this as a gift to a cemetery and when it was not accepted placed it in the middle of the stream.

### "GRAND OLD MAN" TO BE COLLEGE COACH

Cy Young.

Cy Young, the "Grand Old Man" of baseball, has been engaged to coach the ball team of Ohio University, Athens, Ohio.

Young retired from active playing a year ago, after over twenty years of service with major league teams. Most of that period was spent with Boston of the American League, and the battery of Young and Criger was long known as the best in the land. Young was a shining example of the player who took care of himself.

Young, now over forty-five years old, spends most of his time on his farm at Peoli, Mo.

### MAY SHIP CHILDREN

PATERSON STRIKERS ARRANGE TO GET FAMILIES OFF THEIR HANDS BECAUSE OF SUFFERING

PATERSON, N. J., April 18.—Unless some definite action is taken within the next few days to bring about a settlement in the silk strike, the shipment of strikers' children out of town will begin, according to the announcement of labor leaders here today.

Ewald Koettgen, an I. W. W. organizer, said that arrangements had been made for the care of several thousand children in good temporary homes in other cities. The I. W. W. is unable to provide for the wants of the strikers and their families in this city and the general public here has been indifferent to the suffering of the 27,000 silk workers and their families. Koettgen said. Because of this plan of sending the children away, adopted during the Lawrence strike will be tried here.

"We are feeding more than 300 families every day now," he said, "and we count on this movement to ship the children out of town not only to provide temporary homes for them, but to arouse the outside public to the needs of the men and women who have been keeping up the struggle for two months."

A mass meeting of mothers and school children was called for tonight to decide whether, or not the pupils would be called out on strike.

### WOMEN DEMAND JOBS

COLORADO WOMEN INSIST TO PRESIDENT THAT THEY ARE ENTITLED TO HALF OF PATRONAGE

DENVTR, April 18.—Colorado women today appealed to President Wilson to assist them in securing for themselves from one-third to one-half of the federal appointments at the disposal of Colorado's representatives in Washington, and a fair share of federal appointments in Washington that will be apportioned to the state.

Mary C. Bradford, state superintendent of public inspection, and other Colorado suffragists are behind the movement.

Copies of a resolution adopted by the Colorado Equal Suffrage association have been forwarded to President Wilson and Colorado's representatives in Washington. It declares women are fully competent to perform with credit and honor the duties required in federal offices and demands a fair share of the patronage.

## PARTY IN HONOR OF BIRTHDAY

On Wednesday evening at the home of Mrs. Wilden, 321 King street, a party was given in honor of Mrs. G. Krueger's birthday. Those present were Mr. and Mrs. J. Roth, Margaret Roth, Mrs. Sophia Lee, Ida Peters, Ella Paetzer, Elda Sprecher and Mrs. Wilden.

Refreshments were served and the evening was spent with instrumental music and singing. Mrs. Krueger was presented with many beautiful presents.

## ANNOUNCEMENT

Mr. and Mrs. A. Foster of 1603 Charles street, entertained at a party last evening in honor of the engagement of their daughter Alene Louise to Mr. Erwin O. Mueller, son of Mr. and Mrs. Emil Mueller of South Sixth street. The parlor was decorated with sweet peas and pink roses. A supper was served from a daintily appointed table. The place cards were pretty hand painted affairs representing a bride and an envelope containing the names of the engaged couple tied to a pink rose. A large cake with a coin, thimble and ring centered the table. Mesdames Stallsmith, C. L. Larson and Asa Foster assisted in the serving. Those present were Misses Laura Warren, Edna Larson, Clara Larson, Ella Gage, Meta Mueller, Anadell Herrington, Ethel Curren, Vera Higbee, Vesta Higbee, Mabel Canan and Mrs. Harvey West.

## CARD PARTY

Mrs. C. L. Baldwin entertained three tables at cards yesterday afternoon. The prizes were taken by Mrs. S. S. Hebbard and Mrs. A. Candrian.

Mrs. Edward Cronon entertained a small party of ladies at a coffee in honor of her daughter, Mrs. Cady of Spring Valley, Minn.

## SOCIAL BRIEFS

Mrs. F. H. Hankerson returned yesterday from the east, where she was called several weeks ago by the illness of her daughter, who is attending Smith college at Northampton, Mass.

Mrs. Pliny Jones of Black River Falls is visiting at the home of Mrs. David Austin.

Mr. Alex Paul of Watertown, Fla., made a flying trip to the city for a day. He left Mrs. Paul in Chicago. They are enroute to California, where they expect to meet Mr. and Mrs. F. A. Copeland and Mr. and Mrs. J. M. Hixon.

INDIANA CO-ED  
HAS DISAPPEARED

INDIANAPOLIS, Ind., April 18.—Spurred on by a distracted father, private detectives today began a spirited hunt for Miss Mabel Glasscock, 24 years old, of Flora, Ind., a pretty Indiana university co-ed, who drew \$200 savings from a bank and mysteriously disappeared Thursday, April 10.

Oliver Glasscock, the father, believes his daughter has been abducted and probably is detained in some improper place in Indianapolis.

The matron of her rooming house said that Miss Glasscock left to visit her parents, intending to stop off in Indianapolis for a few days. She stopped in the Hotel English in Indianapolis from Thursday to last Saturday. She was seen in Union station, apparently waiting for a train home. Her whereabouts from this point are a mystery.

## A modest Briton.

Like the traditional Englishman, Arthur Stanley, dean of Westminster, wore home from his first visit to America an expression of amazement which only time could efface. He was at once beset by interviewers, says the author of "Out of the Past," who asked the usual questions.

"What was the thing which most impressed you in America?" was one of these. Without a moment's hesitation Dean Stanley replied:

## Meeting Eyebrows.

Some hold that it is a good thing to have meeting eyebrows, as such a person will never have trouble. SHELTON, Wash., April 18.—That John Turnow, the "beast man," was slain in his mountain stronghold during the battle in which he killed Deputy Sheriffs Charnel Lathrop and Louis Blair, became known today. Deputy Sheriff Quimby shot the outlaw dead after Blair and Lathrop had been slain. The three bodies are being brought here today. They were found last night in the clearing around Turnow's cabin where the battle took place.

## A Pillar in Norway.

Close to the old Augvaldaes church on Karneon island, Norway, and leaning toward it is a stone pillar about twenty-five feet high called the "Virgin Mary's Needle." The superstitious local preacher whenever he imagines that its point is getting nearer to the sacred building mounts the pillar. It is said, and chisels a bit off the top so as to save the world from an untimely end.

Ghostly Intruder Runs

Police

WAUSAU, Wis., April 18.—Wausau has a spook. Clad in ghostly vestments, surrounded by a mist that throws out a dimly burning phosphorescent glow, its intangible presence in the dead of night moves about the domiciles of Harry Sipes making weird noises and playing pleasant little tricks, such as rapping loudly on doors and throwing the sleeping members of the family out of bed.

Twice has the head of the Sipes clan retired to his couch, after locking his door, and twice has he been thrown bodily out of bed, awaking to see the form of the ghost "float" out through the keyhole.

Night before last the spectre made its third appearance and so disturbed was Sipes pere that he ran hatless and coatless for three blocks bellowing lustily for the watch. Three policemen who kept watch last night failed to see the spook, but are hopeful he will appear tonight.

COLLEGE SOLD OUT  
OF SEED POTATOES

No more seed potatoes can be supplied to Wisconsin farmers by the college of agriculture this spring, the supply being completely exhausted, according to the report issued by Prof. P. G. Milward.

A few weeks ago the college, through the horticultural department, offered to distribute seed potatoes in lots of two bushels or less at practically cost prices. The application for this seed was so immediate that the department was sold out almost at once. Thus no more orders can be accepted.

The distribution of this high class seed through the potato growing sections of Wisconsin should help to standardize varieties in this state and make possible more shipments than ever of potato seed in carload lots to other sections of the country.

## Mexican Village Ovens.

In nearly every Mexican village may be found a rounded structure of dried mud, resembling an old fashioned beehive, with a small opening near the ground. It is the oven which is utilized by the village for general culinary purposes. Early in the day the oven is thoroughly heated by building a fire in it, and after the coals are brushed down all the pots and pans containing the food to be cooked are placed inside and the oven is closed up. No further attention is paid to it until dinner time.

## Willing.

One evening the head of the household came home earlier than usual and was very hungry. He said to the maid, "Please tell the cook to accelerate the dinner."

The maid brought back word to this effect, "If you please, sir, the cook says she hasn't any in the house, but if you can wait a little while she will send for some."

MINSTREL SHOW IS  
UNIQUE ATTRACTIONPetticoat Minstrel Is in  
Many Ways Out of Ordinary  
Production Ever  
at Majestic

Boyle Woollock's Petticoat minstrels in many ways the most unique show that has played the Majestic, opened to a good and enthusiastic house last night. There are twenty people in the show, and all but two of them are girls, even the blackface end-men. The show opens with a moving picture showing the arrival of the show in a town and its parade up the main street, after which scenes in the dressing room are exhibited. When the curtain eventually goes up the stage is set for an entire minstrel first part, which is carried through in time-honored fashion, including the time-honored gags. The second part of the show consists of a vaudeville olio, in which there are a number of first class comic and musical specialties. Fred Heider, a tall, gentleman built to meet the specifications of a stringbean, is the hit of the production. He is an expert clog, soft shoe and eccentric dancer, and has an attractive way of putting over two or three comic songs.

The show opens with a two reel picture showing the events attending the death and election of a pope. The picture, called "Death and Resurrection," represents in splendid fashion the death of Pope Leo XIII and the choice of his successor, Pope Pius X, who is himself hovering near the point of death in the vatican.

FORESTRY BILL IS  
CAUSE OF FIGHT

MADISON, Wis., April 18.—A sharp fight occurred in the assembly this morning on the Whiteside bill to prohibit the purchase of forest reserve lands until 1915 and providing for an investigation of the lands. Mr. Sawyer had a substitute amendment to a report by a legislative committee, but to permit the state to continue purchases. Mr. Vint boldly charged that the move for delay was inspired by speculators. Two years ago, he said, the lumber interests said the land was worthless for agriculture yet they got in a clause to cripple the forestry movement. Now they declare the land the best under the sun and again seek to cripple the movement by asking delay.

## FIRE THREATENS PAPER

NEW YORK, April 18.—Fire in the plant of the Hearst newspapers early today caused a general exodus from the building and threatened to prevent the publication of the city edition of the Morning American. The World and The Times offered the use of their presses, and arrangements were made to run the city edition off in those plants when Fire Chief Kenon announced that the fire was out and permitted the mechanical staff of The American to return to work.

## MUCH HELP FOR RURAL SCHOOLS

Many Bills in Legislature  
Plan to Boost Efficiency  
of the Country  
System

MADISON, Wis., April 18.—(Special.)—Efficiency of rural schools is the subject of many bills in the legislature. This is in large measure due to the report of the expert employed by the state board of public affairs that Wisconsin is twenty-eighth in the union in efficiency of country schools.

A county board of education is likely to be established to consist of educators of talent, who are to be paid salaries. This idea is embodied in several of the bills.

Assistant Suggested  
One bill proposes making the county superintendent a member of the county school commission and, if there are more than sixty schools in the district, granting him one assistant; if there are one hundred and twenty schools, two assistants, etc. Members of the state department of education, it is claimed, endorse this plan.

Under the state aid bill introduced by Senator Teasdale, the rural school which hires an experienced trained teacher for nine months in the year will receive ten dollars a month extra state aid. Such schools must have an attendance of not less than twenty or more than forty pupils. Other approved schools having teachers of the first grade receive \$5.00 per month state aid. Instruction in county training schools is not given credit in this bill.

## PRAIRIE DU CHIEN

Work is commencing this week on the sewer system to be put in by a firm of Dubuque contractors this summer for the city of Prairie du Chien. Seven car loads of pipe were unloaded and are being distributed along the streets to be traversed by the system.

The Case building on Main street has been rented by the contractors for a lodging and boarding place for their force of laborers.

Paul Herold's new Ford auto delivery truck was put into service on Thursday making trips for the Model grocery.

The death of William Boeckh occurred at an early hour Thursday morning at the family home, after a long period of ill health. For several days however Mr. Boeckh had been feeling unusually well, able to be up and about the house. He leaves his wife and four children, besides other relatives to mourn his loss. His remains will be taken on Friday to Lansing, Iowa, where the funeral will be held on Sunday.

Mrs. E. W. Dyer of La Crosse, is visiting her sister, Miss Minnie Huard.

George Ingalls of Millville visited at the home of C. H. Speck Wednesday and Thursday.

Arthur Brower is in the city for a week or ten days after spending the winter in Beloit, Wis. Mr. Brower has sold the old Brower homestead in lower town and will locate permanently in Beloit. Mrs. Brower is expected here on Saturday.

Henry Potratz and family are moving into the Kluss house on Church street.

Mrs. Alexander Athey has arrived home from New York where she has been spending the winter since the holidays with her daughter, Miss Katherine.

Mr. and Mrs. C. Klegin arrived home Wednesday evening from an extended trip through the west, having visited the Pacific coast and made several stops on business and pleasure.

Mrs. H. E. Howe has returned from a visit with friends in Muskegon.

William Huard is at the Prairie du Chien sanitarium for treatment.

Work will begin soon on a cottage to be erected for Mrs. Elvina Kenyon on north Church street.

Mr. and Mrs. Leo Martin of Bos-cobel are guests at the home of Mr. and Mrs. W. R. Graves.

New plate glass windows are being put in at the Garvey dry goods store.

Dr. Leary, V. S., was in the city from Soldiers Grove Wednesday and Thursday.

C. H. Speck transacted business in Viroqua Thursday.

Mr. and Mrs. William Brinson spent Sunday with friends in La Crosse.

Mr. and Mrs. Emil Kieser of Chicago, are visiting relatives here.

When one considers the press agent methods by which some people acquire fame, he doesn't care much whether he acquires it or not.

**FRECKLES**  
Now is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as a new prescription ointment—double strength—has been discovered that is guaranteed to remove these homely spots.

Simply get an ounce of ointment—double strength—from O. T. Erhart and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength ointment as this is sold under guarantee of money back if it fails to remove freckles.

## BROKE—TRIES SUICIDE

COLUMBUS, Ohio, April 18.—Crazed over the loss of the savings of a lifetime in the defunct Teutonic Savings and Trust company, Reinhard W. Schaeffer, aged 62 years, was arrested when he tried to leap into the Scioto river. Later in jail he was found hanging from a noose made from his belt and with his throat slashed from ear to ear. He is still alive today.

## PICKWICK, MINN.

Misses Laura and Viola Knaak of Winona spent the week-end at their home here.

Perry Whitlock of Money Creek visited his mother here last week.

The little daughter of Mr. and Mrs. Findley Mack, who was operated upon for appendicitis in Winona

hospital ten days ago, is improving as much as could be expected.

Roy Greenwood of La Motte, who has been confined to a hospital in La Crosse the past two weeks, is somewhat improved although his recovery is very slow.

F. J. Willard was a business caller in Winona Tuesday.

Little Mildred Wilson returned

Saturday night from spending her vacation with her grandparents in Sparta and is staying with Mrs. Frank Griffin.

Mr. and Mrs. Will Suffrens spent Wednesday and Thursday in Winona. John Meletke of Homer Ridge was in the village Monday.

Miss M. Thomas, the local teacher, who spent her vacation with relatives near Lewiston, returned Sunday evening and resumed her school duties Monday.

Abel Revolt was called to Winona Monday to attend the funeral of his brother. Mr. Revolt was stricken Thursday last with paralysis and never regained consciousness.

Miss Mabel Rutherford visited relatives and friends in Winona the past week.

Mr. and Mrs. Reich and daughter Carrie of Winona spent several days last week here with Mrs. C. F. Husman, returning home Friday evening.

Mrs. J. A. Johnston and son Ralph left here Wednesday morning for Appleton, Minn., to join Mr. Johnston, who is located at that point with a steam shovel and expects to be there this season.

Mae Beatz of Ashton was a caller in the village Monday.

**Food for Mothers and Children**

Mothers and children need just such a rich, nourishing food as Rona Dutch Cocoa. Physicians prescribe it for growing children and young mothers. It's much richer, smoother, finer. Each sip of this refreshing, healthful food-drink is soothing—invigorating. And it's cheaper than domestic cocoa because it goes twice as far. A 25c can makes 64 cups. Two sizes—10c and 25c.

**VAN HOUTEN'S RONA DUTCH COCOA**

But you must be sure to use Rona Dutch Cocoa. For Rona is made in Holland by the Dutch process—it's much richer, smoother, finer. Each sip of this refreshing, healthful food-drink is soothing—invigorating. And it's cheaper than domestic cocoa because it goes twice as far. A 25c can makes 64 cups. Two sizes—10c and 25c.

## COLLEGE GIRLS DODGE TEACHING

CHICAGO, April 18.—College girls are dodging teaching as a profession, according to Miss Helen M. Bennett, manager of the recently established collegiate bureau of occupations. Of fifty college girls who applied for positions, not one wanted to be a teacher.

Ten would be institutional managers. Ten sought jobs as financial secretaries.

Five would be stenographers. Four sought positions as corresponding secretaries.

Three would be governesses. Four sought positions in chemical laboratories.

The wants of the remaining ten were miscellaneous.

## FIRE COUNTY JAIL; PRISONERS BURNED

STERLING, Ill., April 18.—Prisoners set fire to the county jail here early today in an effort to effect a jail delivery. Michael Sellers, a prisoner, was burned to death in his cell. Sheriff Wahl was badly burned in rescuing several of the prisoners. The interior of the jail was destroyed.

## SENATE DELAYS ON ALIEN LAND BILL

SACRAMENTO, Cal., April 18.—The desire of the leaders of the state senate to push through a mass of appropriation bills may postpone for several days action by the house on the anti-alien land owning bill.

Governor Johnson was reticent but he admitted action on the matter would soon come to a head. He declined to discuss what would be the result should a drastic bill be passed.

European capitalists are deluging the legislature with cablegrams protesting against the house bill which

would exclude all corporations a majority of whose stock is held by aliens.

Treat people kindly and you will find them easier to work.

Again tomorrow (Saturday), for the last day of our spring opening week a souvenir box of candy free with every purchase of 50c and over. The Continental Clothing House.

Hindu Laborers.

An employer of Hindu laborers says that they excel all other foreign nationalities in learning to speak the English language. He also notes another trait which shows that they arrived long ago at an aversion of the common drinking cup. In drinking they use two dippers and a bucket. With one dipper they take the water from the bucket and fill the other dipper, from which a man drinks; this dipper is then rinsed out before another man uses it. —Detroit Free Press.

Pin Points of Life.

In sour paste, vinegar, the melt of a codfish or even in water in which decayed vegetables have been infused the microscope reveals animalcules (little animals) so small that millions of them would not equal a common grain of wheat in bulk. And yet nature with singular prodigality has supplied many of these minute creatures with organs as complete and perfect as those of a whale. In a single ounce of such matter there are more living creatures than there are human beings on the face of the globe!

### MAY CHANGE DATE OF THE PRIMARIES

Almost Certain that First  
Tuesday in June Will  
Be Selected as New  
Day

### SMALLNESS OF VOTE THE CAUSE

Farmers Especially Are  
Too Busy in the Fields to  
Vote When Day Comes  
in September

MADISON, Wis., April 18.—(Special.)—It is almost certain that the primary election date will be changed from the first Tuesday in September to the first Tuesday in June. "Small votes" at the primaries is the primary cause for the introduction of a measure changing the date and the cause is championed by many members of both houses who are anxious to see a full vote out for the nomination of candidates.

**Busy in Fields**  
The chief fault found with the present primary election is that it comes at a time when farmers are busy in the fields and that, unless weather inclement, they cannot afford to spare their time to drive miles to an election booth.

Coming in June, it is argued, the primary would fall at a time when residents of the rural communities had the most spare time and would result in a heavier vote.

The extension of the time in which party campaigns may be conducted is another reason for the change of date, candidates in the past having maintained that the time elapsing between the primary and the election is too short.

It is a well known joke that campaigners in districts comprising rural communities pray for rain on primary day. This, they maintain, makes work in the fields impossible and insures heavy voting. Some of the strongest supporters of the proposed change are senators and assemblymen from the rural districts.

**Voting by Mail Recommended**  
The senate elections committee has recommended retaining the main features of the bill for universal voting by mail. This far reaching change in the manner of voting would also go a long way towards bringing out a full vote, its friends claim, and would eliminate the important elements of season and weather, which are foreign to the questions at issue in elections. The bill has enthusiastic backers who say that our system of voting has not kept pace with the advance in communication in other lines, that it is a relic of the town meeting before the days of rapid and cheap postal service, telephone and telegraph, and other modern message carrying agencies, and that adequate regulation can be had to make the mails perform this additional service.

### "TOTNINGLAG" PLANS GO FORWARD RAPIDLY

SPRING GROVE, Minn., April 18.—The "Totning lag" committee is hard at work securing speakers, baseball teams, bands, street attractions and making arrangements for a monster banquet. The dates are June 4, 5 and 6, and the only thing lacking to make it a huge success is to get the good will of the weather man.

Preston vs. Caledonia Commercial will probably be the lineup for the three scheduled ball games and as both teams are strong, confident and evenly matched some good games can be looked for.

The Spring Grove band of 35 pieces has already been spoken for and Governor Eberhard has promised to be present on one of the three days. Many other noted and vigorous speakers will also grace the occasion with their presence.

The Fladager park, which is in the heart of town, has been secured for the outdoor exercises and an orchestra for the banquet has also been secured. The street decoration committee is already laying its plans to make the town look as inviting as possible to the visitors. Buttons advertising the "Totning lag" will soon be on sale.

Henry Holm, Mr. and Mrs. Edward Holm, Mr. and Mrs. Peter Holm and Maurice Holm and bride of St. Paul spent last Tuesday in Caledonia.

Charley Scherben of Yucatan boarded the train for Caledonia on Tuesday last.

### RUMOR ARMISTICE IN BALKAN WAR

VIENNA, April 18.—Persistent reports, none of them officially confirmed, continues all over Europe today to the effect that another armistice has been agreed upon in the Balkan war. In Constantinople, it was believed that Turkey and Bulgaria had agreed upon a ten day cessation of hostilities.

The news that got to Paris was that a three day truce had been arranged among Turkey and all the allies except Montenegro.

### This Should Keep The Baby Healthy

When It Is Ill Don't Become Alarmed  
But Give this Fine Laxative

It is often difficult to tell just what is the matter with a crying, peevish baby or child too young to express its feelings in words, but as a general rule the mother will find that there is a tendency to constipation, which has brought on a headache or nervousness. The little one has no pain, but feels "out of sorts."

The first thing to try is a family remedy containing good but mild laxative properties, and many mothers will say that their choice would be Dr. Caldwell's Syrup Pepsin. Thousands of mothers keep it in the house for such emergencies, among whom may be mentioned Mrs. Jennie Manuel, Altamont, Ill., who began to give her baby, Frederick, Syrup Pepsin when he was 6 months old, and has used it ever since with gratifying results. She writes that Frederick was not growing well and threw up his food, but after a few days use of Syrup Pepsin he was able to retain his food and gained rapidly in weight. Thousands of others are glad to say that Syrup Pepsin saved them many an illness and many a large doctor bill, for by administering it promptly, when the first symptoms of illness were noticed, they prevented a serious ailment.

It is so pleasant tasting that no child will refuse it, and as it does not gripe, the child is glad to take it again. A bottle can be obtained of any druggist for fifty cents or one dollar, the latter being the size bought by families already familiar with it. It will be mailed you.

with its merits. Results are always guaranteed or money will be refunded.

Syrup Pepsin is for all the family from infancy to old age, and because of its mildness families should prefer it over all other remedies. It is absolutely safe and reliable. You will never again give cathartics, pills, salts or such harsh physics, for they are usually unnecessary, and in the case of children, women and elderly people are a great shock to the system, and hence should be avoided. If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle bought by families already familiar will be mailed you.

### BONFIRE FIRES WOMAN

EAU CLAIRE, Wis., April 18.—While Mrs. L. Garrett, an aged resident of this city, was raking leaves in her yard and making a bonfire of them in order to do her part in the spring cleanup campaign, the flames set fire to her clothing and she was terribly burned. Her condition is critical. Mrs. Seth Record, a neighbor,

wrapped the blazing woman in pieces of carpet to extinguish the flames.

### TO SPIN VICTIMS INTO INSENSIBILITY

CHICAGO, April 18.—To the tune of "Waltz Me Around Again Willie," nerve-wrecked victims of the ulcerated tooth will be spun into insensibility in the most modern of dental parlors, if Dr. L. L. Funk, who read a paper before the Chicago Dental society, gets other dentists to adopt his views.

"Away with laughing gas, ether and chloroform," said Dr. Funk. "Let us have the human spool."

Dr. Funk explained that the "human spool" works on the principle of the old fashioned merry-go-round—but it goes round faster. The patient is spun until he is dizzy and then unconscious. Centrifugal force draws the blood from the head.

### MANY PLANT TREES

DENVER, Colo., April 18.—Tree planting and building of shelters for birds throughout the state of Colorado today were the principal ceremonies which marked Arbor and Bird day, named such by proclamation of Gov. Elias M. Ammons.

### TO HEAR RAILWAY CASE IN ST. PAUL

ST. LOUIS, Mo., April 18.—St. Paul has been chosen as the city in which the federal judges again will hear attorneys for the Pacific railroads in their efforts to submit a satisfactory form of decree for segregation of the Union and Southern Pacific railroads under the recent decision of the United States supreme court, ordering complete financial and physical separation of the two chief factors in the Harriman railway federation.

The more birthdays a woman has the less they count.
